3.2 • ANNUAL REVIEW OF CITY INVESTMENT POLICY
Administrative Services Director Diane Perkin displayed slides and gave a presentation based on her memo in the agenda. She stated that as specified by law, the City’s Investment Policy was reviewed annually to stay current with State and Federal law and to conform to sound investment practices. She reviewed the City’s portfolio characteristics, diversification, distribution and returns, as well as the overall investment strategy and position. She noted that although in times of such low interest rates it could be easy to fall into a pattern of chasing yield, the City’s investment objectives, in order, continued to be safety, liquidity and yield. She pointed out two minor amendments to the policy in response to new FDIC insurance limits. It was the recommendation of staff that the City Council approve the Investment Policy as amended.

Council Member Croft stated that even in light of the poor returns everyone had experienced on investments, the City’s sound and conservative investment policy had helped Lakewood to get through the tough economic times.

The Director of Administrative Services made a brief presentation based on the memo in the agenda and stated that the vehicles currently utilized for Parking Control Enforcement had high mileage and the cost of repairs had come to be more costly than replacement. She noted that Air Quality Management District grant funding was available for the acquisition of new alternate fuel vehicles. The Purchasing Officer and Fleet Manager had surveyed dealers for the specified vehicle, and had found only one able to confirm availability of the cars. It was the recommendation of staff that the City Council authorize the purchase of three 2010 Honda Civic GX natural gas vehicles, complete with all necessary lighting and hardware, from Pacific Honda for a total price of $84,547.23.

Council Member DuBois confirmed from Ms. Perkin that there were adequate AQMD grant funds to cover the entire purchase amount.
