ANNOUNCEMENTS AND PRESENTATIONS:
Mayor Esquivel advised that City Manager Howard Chambers had announced his plans to retire at the end of the year. The Mayor thanked him for his strong leadership of the City staff, acknowledging his part in the development of a City with sound finances, safe streets, and award-winning parks. He noted that although the transition ahead would not be simple, the City Council had confidence in the management team.

Vice Mayor Van Nostran stated he remembered Howard’s early days with the City and how well he had grown into the job. He noted his deep involvement with the community and the extra time he devoted to civic events. He commended him for developing a staff that was second to none.

Council Member DuBois stated that having grown up in town, Howard was an original product of Lakewood, who put into place systems, such as a standard for outstanding customer service and concern for residents that would continue going forward.

Council Member Croft stated that many had benefitted from Howard’s great leadership and wise counsel and that his legacy was evident, stamped upon every part of the community. He noted that due to conservative, fiscal responsibility, even in very poor economic times, Lakewood continued to do well.

Council Member Rogers stated that although it was a happy time to celebrate Howard’s long career with Lakewood, it marked the end of an era. He stated that he wished to assure the community and the staff that the City Council would make every effort to select a successor that would honor the traditions that have made Lakewood what it is today.

She reported that the City had received funding for street projects through the Federal American Recovery and Reinvestment Act (ARRA) and that following the completion of work on South Street and on Bloomfield Avenue, not all funds had been expended. The proposed project for street resurfacing in Centralia Street was qualified for use of the remaining funds, with the balance of the project funds coming from Federal STPL, Proposition C and Measure R funds. She stated that nine bids had been received for the Centralia Pavement Rehab project, which was scheduled to begin in early October and be completed early in December. It was the recommendation of staff that the City Council adopt the plans, specifications and working details for Public Works Project No. 09-04; award a contract to the low bidder, R.J. Noble Company, in the amount of $927,454; authorize staff to approve a cumulative total of contract change orders, as needed, not to exceed $100,000; authorize staff to approve a proposal from Willdan to provide construction management for the project in the amount of $129,500; and authorize the use of $100,000 in Measure R funds, subject to approval by the Metropolitan Transit Authority.
