It was the recommendation of the Planning and Environment Commission that the City Council receive and file the report as presented and direct staff to submit the report to the Governors Office of Planning and Research and Department of Housing and Community Development.

The project was scheduled to begin in April and be completed by September of this year. It was the recommendation of staff that the City Council adopt the plans, specifications and working details for the project; appropriate $110,000 from the Water Fund to the project account; award a contract to T.A. The Director of Public Works made a presentation based on the report in the agenda and stated ten bids had been received for a project to resurface approximately 2.9 miles of residential street and one alley with rubberized asphalt concrete. She advised that any damaged sidewalks, curbs or gutters would be repaired as part of the project. She also noted that the per cubic yard price quoted by the low bidder was the best price the City had received since 2005. It was the recommendation of staff that the City Council adopt the plans, specifications and working details for the project; award a contract to Silvia Construction, Inc. in the amount of $696,405.00, subject to the approval of the Substantial Amendment No. 1 to the Community Development Block Grant Consolidated Plan and Action Plan; and authorize staff to approve a cumulative total of contract change orders, not to exceed $100,000.

Responding to a question from Council Member DuBois, Mr. Rapp stated that about 92 percent of the City’s residential streets had been resurfaced to date.

Council Member Croft stated that the recent rains had proven the value of the rubberized asphalt mix as following the storms, the streets had drained quickly.

The Director of Community Development made a presentation based on the memo in the agenda and stated that the County of Los Angeles had adopted a new Fire Code in November and recommended its adoption to the cities served by the Los Angeles County Fire Department. She reported that the new code would not greatly impact Lakewood, as the major changes involved Fire Hazard Severity Zones, and there were no such zones within the City. She concluded by stating that it was the recommendation of staff that the City Council introduce the proposed ordinance and resolution to adopt the 2011 Fire Code by reference, and that a representative from the Fire Department was present to answer questions.

Assistant Fire Chief Gerry Heinzel responded to questions from the City Council by stating that one of the new provisions would allow the Fire Department to collect fees for their time spent on permits relating to the motion picture filming industry and that changes to the building codes to require fire sprinklers for all new residential properties would also impact the Department.

Council Member Croft expressed condolences to the Chief and all fire personnel on the recent loss of an LA City firefighter in the line of duty.

3.1 • WATER CONSERVATION REBATE PROGRAM STATUS REPORT

Water Resource Director Jim Glancy displayed slides and presented a report based on the memo in the agenda. He reported that the Rebate Program was scheduled to begin for Outdoor Water Conservation. He advised that the program, initially approved for implementation by the City Council in November, would provide rebates, in the form of billing credits, for the purchase and installation of eligible water-saving irrigation devices. He noted that although adequate rainfall had been experienced during the current year, Southern California was coming off of the driest eight-year period in recorded history and the City was required to meet new State mandated conservation goals. He reviewed the different types of devices eligible for rebate and advised that the program was scheduled to begin on May 1 and continue until funds budgeted for the rebates were expended.

COUNCIL MEMBER DUBOIS MOVED THAT THE STATUS REPORT BE RECEIVED AND FILED. THERE BEING NO OBJECTION, IT WAS SO ORDERED.

At 8:40 p.m., the Regular Meeting of the City Council was recessed for the Meeting of the Lakewood Redevelopment Agency. At 8:45 p.m., the City Council Meeting was reconvened in joint session with the Agency.
JOINT PUBLIC HEARING
DISPOSITION AND DEVELOPMENT AGREEMENT WITH ALEMBIC NPI, LLC

The City Attorney advised that the City Council had previously approved the course of action that led to the agreement presented at this time.

The Director of Community Development made a presentation based on the memo in the agenda and stated there were five blighted Lakewood properties owned by the Lakewood Redevelopment Agency that had been acquired under the Scattered-Lot Acquisition Program for the development of Low and Moderate Income housing. She reported that a proposal had been received from Alembic NPI, LLC for the purchase and development of the properties located at 11643, 11649, and 11610-18 207th Street; 11644 206th Street; and 20920 Roseton Avenue into 32 affordable housing units. It was the recommendation of staff that the City Council conduct a public hearing, adopt the proposed resolution, and approve the Disposition and Development Agreement and Health and Safety Code Section 33433 Summary Report.

Vice Mayor Van Nostran inquired about the time frame for development and any restrictions on the sale of the development once constructed. Ms. Southwell stated that the developer would be seeking tax credit funding and would have until May of 2012 to do so. She also stated that there was a restriction that the units must remain affordable housing units for a period of 55 years and that the City would have reasonable input in the event of a sale of the properties.

Council Member Croft stated that a review of the information available through the company’s website seemed to indicate that they were invested not just in the development, but also the management of properties. Ms. Southwell responded by stating that one of the attractive parts of this proposal was the company’s history of developing and then managing.

Responding to a question from Council Member Rogers, Ms. Southwell stated that although the original proposal showed all of the units as two-bedroom units, there was flexibility built into the agreement.

Mayor Esquivel opened the public hearing at 8:55 p.m. and called for anyone in the audience wishing to address the City Council on this matter.

Tom Warnke, representing Alembic NPI, LLC, stated they were excited about the opportunity to develop the properties. He stated his company had a particular mission to serve immigrant communities and that they would be willing to work with Community Development staff to provide 3-bedroom and handicapped units. He concluded by stating that they intended to hold on to the properties throughout the entire 55-year term.
