1.2 • INTRODUCTION OF ORDINANCE ADOPTING THE LAKEWOOD CENTER PERIMETER SIGN PROGRAM SPECIFIC PLAN

Community Development Director Sonia Southwell displayed slides and gave a report based on the memo in the agenda. She stated an application had been received from Macerich for a Specific Plan for the Lakewood Center Perimeter Sign Program. The Sign Program, which was intended to inform motorists about the shopping opportunities available within the Center, particularly those located on the side opposite the direction of travel, would provide for the placement of twelve freestanding signs around the perimeter of the Center. She noted that the Program would also include two signs on Candlewood Street identifying it as “Restaurant Row.” The Program also provided criteria for new or replacement freestanding tenant monument signs. It was the recommendation of the Planning and Environment Commission that the City Council introduce Ordinance No. 2011-7.
1.2 • LAKEWOOD CENTER PERIMETER SIGN PROGRAM SPECIFIC PLAN – Cont.
ORDINANCE NO. 2011-7; AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LAKEWOOD ADOPTING THE LAKEWOOD CENTER PERIMETER SIGN PROGRAM SPECIFIC PLAN was read by title by Mayor Van Nostran.

Ms. Southwell responded to questions from Vice Mayor DuBois by stating that an independent engineer had verified that none of the signs would conflict with the vision triangle necessary to ensure vehicle and pedestrian line-of-sight safety.

Council Member Rogers stated that it was good to see the Center formalize “Restaurant Row,” as it had long been commonly used to refer to the area on Candlewood Street between Lakewood Boulevard and Clark Avenue. He inquired if the signs were graffiti resistant.

Skip Kuhn, President of Development for Macerich, advised that all of the signage would have a special graffiti coating, making them easy to clean. He stated that unifying the signage and promoting all of the different shopping opportunities available within the Lakewood Center property should be a significant benefit to the Center’s merchants.

Council Member Croft stated the new signage should help to improve traffic circulation around the Center property and help business to succeed.

Mayor Van Nostran extended thanks to Mr. Kuhn for the continuing investments by Macerich to upgrade and modernize Lakewood Center.

Mayor Van Nostran opened the public hearing at 7:53 p.m. and called for anyone in the audience wishing to address the City Council on this matter. There was no response.

Public Works Director Lisa Rapp made a presentation based on the report in the agenda and stated that funding had been included in the 2011-12 budget for the replacement of roofs on the Youth Center building and the Nye Library. She further stated that the first step in the process was to accept a proposal from Meyer and Associates to provide design services. She noted that the architect would provide a full, detailed set of construction plans, which would provide for better, more accurate bids on the job. It was the recommendation of staff that the City Council accept the proposal of Meyer and Associates to provide design services, under their existing agreement, for the Youth Center and George Nye Library Roof Replacement Project, in the amount of $14,925.

3.2 • DONATION OF MOBILE AUTOMATIC LICENSE PLATE RECOGNITION (ALPR) EQUIPMENT

Deputy City Manager Carol Jacoby displayed slides and made a presentation based on the memo in the agenda. She reported that the Automatic License Plate Recognition (ALPR) system that had been purchased by the City for installation on a Sheriff’s Department radio car was eligible to receive a free upgrade. The maintenance agreement for the unit, purchased in 2007, had ended and as part of the new maintenance agreement, the vendor would provide an upgraded digital version. The Sheriff’s Advanced Surveillance and Protection unit would accept the donation of the old system to be maintained for backup purposes. It was the recommendation of staff that the City Council accept the free upgrade and donate the old system to the Sheriff’s ASAP Unit to maintain for backup purposes.

Sergeant John Gaw stated that with the old system, the ALPR unit had to return to the Station to upload the data, while the new digital system could auto-link to the database from the field and would require less storage space of the Station’s computer system. He noted that another feature of the system was a new Blue Print pad installed in the vehicle which could be used to establish the identity of a suspect without identification, if in the County’s database.

COUNCIL MEMBER WOOD MOVED AND VICE MAYOR DUBOIS SECONDED TO ACCEPT THE UPGRADE AND DONATE THE OLD SYSTEM TO THE SHERIFF’S ASAP UNIT. UPON ROLL CALL VOTE, THE MOTION WAS APPROVED:
