MEETING WAS CALLED TO ORDER at 7:32 p.m. by Mayor Croft in the Council Chambers at the Civic Center, 5000 Clark Avenue, Lakewood, California.

PLEDGE OF ALLEGIANCE was led by Girl Scout Troop #523

ROLL CALL: PRESENT: Mayor Steve Croft
            Vice Mayor Todd Rogers
            Council Member Diane DuBois
            Council Member Ron Piazza
            Council Member Jeff Wood

ANNOUNCEMENTS AND PRESENTATIONS:
Mayor Croft announced that the meeting would be adjourned in memory of Jesus Ontiveros, husband of Maricela Montenegro Ontiveros of the City’s Administration Department.

City Attorney Steve Skolnik advised that there had been several news articles regarding the California Department of Finance demanding a $9 million payment from the City or face the loss of sales and property tax revenue. He advised that the background for the story was rooted in the history between the City and its Redevelopment Agency. The City had loaned money to the Agency which, by formal written agreement, was to be paid back over a 20-year period. He noted that even though the last loan payment made by the Agency occurred before the law dissolving redevelopment went into effect, the State was demanding that the City return that payment. He noted that although this provision, referenced as the “claw back” was currently the subject of litigation between many cities and the State, the Department of Finance was demanding the repayment before the courts had made a ruling. He stressed that the City’s financial position was stable, and that even if the payment had to be made, operations would not be affected.

Vice Mayor Rogers pointed out that the State of California could not pay its own bills so they decided to take money away from each city, because, unlike the State, city government works well. But the takeaway forced cities to waste their money on lawsuits just to try and get their own money back.

Council Member Piazza stated that there was no need for residents to feel threatened by the State’s takeaway attempt. He noted that his City Council colleagues, both past and present, had done such a good job at planning for a “rainy day” that the City would continue to run well, even if the funds were lost to the State.
ANNOUNCEMENTS AND PRESENTATIONS: Continued
Council Member DuBois noted that there had been numerous reports that the State would finally be out of the red and have a budget surplus, but it would be because of money taken from our residents’ pockets.

Public Works Director Lisa Rapp gave a brief presentation based on the memo in the agenda and stated that the proposed stormwater facility permit fees were directly tied to the Low Impact Development ordinance adopted in November. She reported that the proposed fee was intended to cover the expense of inspections required under the ordinance and the City’s NPDES permit.

Noting that the cost of the permit, Vice Mayor Rogers asked for a breakdown. Director of Administrative Services Diane Perkin responded by stating that the cost was an estimate based on a cost of services survey done in March, 2010, and that with experience, the cost could be adjusted down. 1.1 • ESTABLISHMENT OF TOBACCO AND NICOTINE PRODUCT SALES IN THE C-4 ZONE - Continued

Council Member Piazza emphasized that this ordinance only addressed businesses whose sales of tobacco and nicotine products were at least fifty percent or more of their business. He stated that he felt the ordinance represented a fair balance between those who want or need to use the products and those that do not want to be around those using them. He also noted that all of the currently operating businesses could continue to operate.

Vice Mayor Rogers stated that while he appreciated the input of Father Kearney, and he hoped the product proved to be positive and not harmful in the long term, it was the obligation of the City Council to be pro-active and not reactive, especially with products that could also be used for illegal substances as well as the legal ones.

Mayor Croft expressed the hope that the devices were helpful to those who wanted to quit smoking, but also expressed concern that the fastest growing sector using the devices was young people.

1.2 • ESTABLISHMENT OF INDUSTRIAL TRAINING FACILITIES

Community Development Director Sonia Southwell made a presentation based on the memo in the agenda and stated that based on business inquiries, staff had determined that there was a need to amend the City's Municipal Code in order to allow industrial training facilities in the M-1, Light Manufacturing zone. Although currently allowed in commercial zones, along with trade and vocational schools, it was recommended that industrial training facilities be more appropriately located farther from residential uses. It was the recommendation of the Planning and Environment Commission that the City Council hold a public hearing and introduce the proposed ordinance.

ORDINANCE NO. 2013-10; AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF LAKEWOOD AMENDING THE LAKEWOOD MUNICIPAL CODE PERTAINING TO THE ESTABLISHMENT OF INDUSTRIAL TRAINING FACILITIES IN THE M-1 (LIGHT MANUFACTURING) ZONE

Council Member Wood determined from Ms. Southwell that the most recent inquiry for this type of use was for the location formerly occupied by a batting cage business.

Council Member Piazza stated that the proposed change made good common sense and that the training facilities, as a part of the City's vibrant industrial area, could bring more jobs to the City.
