1.1 • WATER DEPARTMENT PUBLIC HEALTH GOALS REPORT 2010-12

Water Resources Director Jim Glancy made a presentation based on the memo in the agenda and stated that State and Federal contaminant level goals required the preparation of a Public Health Goals Compliance Report every three years. He reported that thousands of tests were performed each year for 180 constituents and that only two constituents were above recommended goal levels. He noted that these were rather utopian goals, as the goal levels were significantly lower than any currently available laboratory technology to detect them. He also noted that having test disclose a constituent level above either the State Public Health Goal (PHG) or the Federal Maximum Contaminant Level Goal (MCLG) did not mean that the Department was in violation of State or Federal drinking water standards. It was the recommendation of the Water Resources Committee that the City Council hold a public hearing and adopt the Public Health Goals Compliance Report 2010-2012.
1.1 • WATER DEPARTMENT PUBLIC HEALTH GOALS REPORT 2010-12 – Cont.

It was the recommendation of staff that the City Council adopt the proposed resolution confirming the report of delinquent fees. There was no response.
