She noted that 143 miles of residential street paving had been completed to date. She stated that eight bids had been received for a project to resurface about 10 miles of residential streets. She reported that the project had been bid with an add alternative that would allow the City to issue a change order for additional work when Community Development Block Grant funding became available later in the year. It was the recommendation of staff that the City Council adopt the plans, specifications and working details for PW Project No. 08-02; award a contract for the project to Silvia Construction, Inc. in the amount of $1,183,407; and authorize staff to approve a cumulative total of contract change orders, as needed, not to exceed $100,000.
