ROLL CALL: PRESENT: Mayor Steve Croft
Vice Mayor Todd Rogers
Council Member Diane DuBois
Council Member Joseph Esquivel
Council Member Larry Van Nostran

ANNOUNCEMENTS AND PRESENTATIONS:
Mayor Croft made a statement regarding the economic recession and its impact on the City of Lakewood. He encouraged Lakewood residents to have confidence that the city had taken the appropriate steps to weather the economic storm. Expenditures had been adjusted for reduced revenue and the City’s investments were secure. He advised that the City Council and City staff would be carefully monitoring activity in Sacramento, where legislators were known for seizing local revenue to help balance the State budget, and the conditions of the retail economy, a significant source of revenue to the City. The other major concern was the housing market and people losing their homes to foreclosure. He concluded by stating that the City Council was committed to riding out the challenges ahead while finding creative ways to preserve the quality of life valued by Lakewood residents.

Trey Lindle and Skip Kuhn, representing the Macerich Corporation, owners of the Lakewood Center Mall, provided a brief update on the Costco project. Mr. Kuhn stated that after dealing with some complex issues regarding the relocation of utility lines before the pad for the stores could be created, the project was on track and the store was scheduled to open in early February of 2009.

Vice Mayor Rogers stated that there had been rumors in the community that environmental concerns were delaying the project. Mr. Kuhn stated those rumors were untrue and that the only environmental issue that had been dealt with was the high water table at the site.

Council Member DuBois noted that the opening date had been pushed back several times and inquired how firm the February timetable was. Mr. Kuhn stated the new timetable was firm and would not be extended again.
ANNOUNCEMENTS AND PRESENTATIONS: Continued
Assembly Member Warren Furutani addressed the City Council stating that although the State’s budget had finally been passed, it was a budget that pleased no one, and with the worsening economic crisis, State legislators expected to be called into an emergency session after the November 4th election. He reported that the point had been reached where spending cuts alone would not balance the budget and that the hope was to spread the cuts as widely and thinly across the board as possible. He thanked the City Manager and his staff for providing him with good information and he noted that feedback from the City was always welcome.

Mayor Croft expressed appreciation to Assembly Member Furutani for his openness and willingness to work with the City.

Council Member DuBois thanked Assembly Member Furutani for his attendance at many local functions.

1.1 • AWARD OF BID FOR PUBLIC WORKS PROJECT NO. 2008-3, DEL VALLE PARK PICNIC SHELTERS REPLACEMENT

Public Works Director Lisa Rapp displayed slides and made a presentation based on the memo in the agenda. She reported that due to a vandalism-caused fire earlier this year, one of the picnic shelters at Del Valle Park had suffered damages which caused it to be demolished. By utilizing available grant funding for parks project and the insurance settlement for the burned shelter, a project was put together to replace all three of the picnic shelters at Del Valle Park. She stated that four bids had been received for the replacement of the three picnic shelters. It was the recommendation of staff that the City Council adopt the plans, specifications and working details for the subject project; award a contract to the low bidder, Romberg Excavation & Operations in the amount of $249,981.00; authorize the Mayor to execute an agreement with AESCO Technologies, Inc. for construction phase geotechnical services, in an amount not to exceed $16,000; approve an amendment to the agreement with Meyer & Associates in the net additional amount of $19,000 for construction phase professional services; and authorize staff to approve a cumulative total of change orders, as necessary, not to exceed $18,000.

Responding to a question from Council Member Van Nostran, Ms. Rapp stated that the actual structures had been ordered and would be purchased separately and that this contract included the excavation, demolition, and installation of the shelters. Ms. Rapp also stated that by the terms of the grant funding, the project must be completed by no later than March, 2009.

Mayor Croft opened the public hearing at 8:13 p.m. and called for anyone in the audience wishing to address the City Council on this matter. There was no response.

It was the recommendation of staff that the City Council adopt the proposed resolution to approve submittal of the grant application.

Council Member DuBois inquired if this was the material currently being used for street resurfacing in Lakewood. Ms. Rapp confirmed that this was the material being used and, due to this program, over 79,000 old tires had been diverted from landfill sites.

The Director of Public Works displayed slides and gave a report based on the memo in the agenda. She stated that the City had received an allocation for Federal funds, through the Federal Transportation Administration, for the purchase of transit stop improvements. The required matching funds were available through Proposition A transit funds. She noted that these funds could not be used for any purpose other than transportation projects and staff had proposed the purchase and installation of bus shelters, benches and litter receptacles. It was the recommendation of staff that the City Council authorize the purchase of additional transit stop furniture in the amount of $475,200; authorize staff to approve change orders to TDS Engineering for installation of additional bus shelters, as needed, not to exceed $150,000; and authorize the use of $250,000 in Proposition A funding for this project.

Therese Hughes, Senior Field Representative for Congresswoman Linda Sanchez, stated that Congresswoman Sanchez was thrilled to have been instrumental in securing the Federal grant funds for this project. She concluded by stating that not only were shelters and benches an important component in an effective transit system, the use of solar-powered lighting for the shelters made for a green-friendly project.
