advised that the bids had exceeded the engineer’s estimates for the project, most likely because of the specialty items involving many trades. Staff was recommending that the work for the two facilities be issued under separate trade contracts, and that the repair work for the operable walls at Weingart be completed by the wall manufacturer as the sole source of custom parts. It was the recommendation of the staff that the City Council reject all bids received for Public Works Contract No. 05-10 and authorize staff to reorganize and re-bid the project as separate contracts; authorize additional services from Meyer & Associates to separate and modify the plans and specifications in the amount of $3,805; and approve the sole source service purchase order for Advanced Equipment Corporation in the amount of $28,000 for the repair of the electric operable room divider walls in the Weingart Senior Center Assembly Room, and make an appropriation from the General Fund for the work.

Mayor Van Nostran opened the public hearing at 7:38 p.m. and called for anyone in the audience wishing to address the City Council on this matter. There was no response.

The project consisted of two, two-story buildings, one with four units and the other with five units. He noted that the project required a five-foot street dedication to be in compliance with right-of-way width requirements. It was the recommendation of staff that the City Council hold a public hearing on Tentative Tract Map No. 62379 and adopt the proposed resolution approving the project, subject to the conditions as contained in the resolution of the Planning and Environment Commission.

The Director of Public Works provided a report based on the memo in the agenda by stating that the City was eligible for grant funding from the California Integrated Waste Management Board for the use of rubberized asphalt concrete pavement to resurface residential streets. She reported that the program diverted waste tires from landfill disposal and recycled them into the material used to overlay streets, also providing a smoother, quieter riding surface on the street. The City’s resurfacing projects had accounted for the recycling of approximately 95,000 old tires, resulting in a grant to the City of $88,850.

3.3 • PURCHASE AGREEMENT FOR A SCHWEIZER 300-C HELICOPTER FOR THE SKY KNIGHT PROGRAM
Deputy City Manager Sandi Ruyle made a presentation based on the memo contained in the agenda and stated that since one of the helicopters used for the Sky Knight Helicopter Patrol Program was nearly twenty years old and had over 14,000 flight hours, it was time to consider the purchase of a replacement unit. She noted that the Program had used the same type of helicopters, Schweizer 300-C, since the program began in 1966 in order to provide a consistent maintenance program. She reported that the cities participating in the Sky Knight Program would share proportionately in the cost of the new aircraft and an agreement had been drafted for that purpose. It was the recommendation of staff that the City Council approve a purchase agreement with the sole-source provider, Schweizer Aircraft Corporation, for a Schweizer 300-C aircraft; direct the Finance Director to calculate and pay the appropriate sales and use tax for the purchase; authorize reimbursement agreements with the cities of Bellflower, Cerritos and Paramount; and authorize the execution of the reimbursement agreements.

Responding to a question from Mayor Van Nostran, Chief Pilot Wes Pearson stated that although the current 300-C model was basically the same as the aircraft the Program had used for years, a number of improvements to the design had been made over the years. He also noted that the components of the aircraft were now designed for longer life, equaling more hours in the air.

COUNCIL MEMBER ESQUIVEL MOVED AND COUNCIL MEMBER ROGERS SECONDED TO APPROVE STAFF’S RECOMMENDATION. UPON ROLL CALL VOTE, THE MOTION WAS APPROVED:

AYES: COUNCIL MEMBERS: Esquivel, DuBois, Rogers, Croft and Van Nostran
