She noted that it would take approximately 18 weeks to obtain the pump for the project and that completion was expected in February of 2005. It was the recommendation of staff that the City Council award a contract to the low bidder, Bakersfield Well & Pump Company, in the amount of $364,861; appropriate $291,000 from the Water Fund to the project account; adopt the plans, specifications and working details for the project; and authorize staff to approve a cumulative total of change orders not to exceed $40,000.

1.4 • URGENCY ORDINANCE NO. 2004-8; REGULATING THE USE OF BARBECUES IN CITY PARKS
The Director of Recreation and Community Services, Joan Biegel, presented an oral report based on the memorandum contained in the agenda and reported that the City Council had looked at the issue of portable barbecues in City parks at their June 22nd meeting and had directed staff to work with the City Attorney to develop an ordinance. She provided a brief background for the ordinance, stating that the barbecues presented a public hazard when hot coals were disposed of in trash cans or on the ground and that such units were utilized by large picnic groups creating a risk of overcrowding in parks that were designed as neighborhood parks and not intended to accommodate numbers of large groups. She noted that there were fixed barbecue units in many of the parks and larger, built-in units in the picnic shelters. It was the recommendation of the Public Safety Committee that the City Council introduce and immediately adopt as an urgency measure, Ordinance No. 2004-8 pertaining to the use of barbecue equipment on City parks.

Responding to questions from Vice Mayor Piercy, Ms. Biegel stated that staff had posted signs at the parks advising patrons of the upcoming change and that although some had been unhappy, there were also positive comments received.

Council Member Van Nostran noted that he had received positive feedback from residents.

Mayor Rogers stated this was an important step in re-establishing the parks as neighborhood parks.

Council Member Wagner stated while he had previously received complaints from residents regarding the hazards of spilled coals from portable barbecues, the proposed ordinance had drawn positive remarks from residents. He inquired if staff had performed an assessment of the existing stationary barbecue facilities at the parks to determine if the number was adequate. Ms. Biegel responded by stating that staff had planned to assess the situation at the end of the summer and make recommendations to the City Council.

Mayor Rogers noted that the intent of the assessment was that it would be based on the capacity of the individual park.

Not only did cargo traffic during normal business hours cause congestion impacting area residents, but also was a significant source of air pollution. It was hoped that by creating incentives for the use of extended gate hours, congestion could be reduced during peak traffic periods. It was the recommendation of the Intergovernmental Relations Committee that the City Council adopt the proposed resolution.

Council Member Van Nostran inquired if 24-hour port access was part of the proposal. Mr. Stover responded by stating that it was a negotiated process and that the passage of such resolutions was intended to be an encouragement to the negotiation process.

Responding to a question from Council Member Wagner, Mr. Stover stated that there were several bills currently under consideration addressing this issue. He noted that in order to break a stalemate, both regulatory and financial incentives were necessary.
