ANNOUNCEMENTS AND PRESENTATIONS:
Captain Dave Fender, Lakewood Sheriff’s Station Commander, gave a brief slide presentation and presented a video clip of a portion of a speech made by Sheriff Lee Baca regarding the challenges facing the Sheriff’s Department in light of the Los Angeles County proposed budget. As proposed, the Sheriff’s Department budget could be cut by as much as $100 million which would mean that many special units, such as gangs, identity theft and family crime would be disbanded, causing those issues to be dealt with at a local level, a tremendous impact on all communities served by the Department.

Council Member Wagner remarked on the slide presentation and noted that it was obvious that the community would be directly affected by such a cut. He noted that budget projections showed a very large increase in the Department’s cost of workers’ compensation,

something that could be traced straight back to recent legislation signed by Governor Davis which raised workers’ compensation payments without regard to employers’ costs.

Council Member Piercy pointed out the large increase in the number of civilian support positions within the Department. Captain Fender responded by stating that use of civilian personnel, where appropriate, helped to reduce costs to the Department. Council Member Rogers also noted that the use of civilians helped to allow sworn officers to concentrate on areas where they were most needed such as patrol and custody duties.

Mayor Van Nostran noted the success of the sixth annual Volunteer Day in Lakewood, stating that over 600 volunteers had worked on 13 homes, 2 schools, 8 parks, the Iacoboni Library, and the Nixon Yard. He also thanked the Lakewood Rotary Club, Lakewood/Long Beach Soroptimists, Wal-Mart, Smart & Final, Home Depot, SY Nursery and BZ Disposal for their donations which helped make the event a successful one.

a. Purchasing Bid 02-3, Sheriff’s Station Computer Equipment
b. Purchasing Bid 02-4, Detective’s Computer Equipment
c. Purchasing Bid 02-5, Sheriff’s Video Workstation

Finance Director Larry Schroeder gave a brief oral presentation based on the memorandum in the agenda and stated the City had recently been awarded $300,000 in grant money to enhance the existing Career Criminal Apprehension Program (CCAP) with the purchase of new technology and equipment. He reported that sealed bids had been received for the project that had been separated into three bids based upon the type and specifications of the needed equipment. Following review, it was the recommendation of staff that the City Council award Bid 02-3, Computer Equipment, to Dell Marketing, L.P. in the amount of $111,429.30; Bid 02-4, Detective’s Computer Equipment, to Computerland of Glendale in the amount of $19,885.53; and Bid 02-5, Video Workstation, to A-vidd Electronics, Inc. in the amount of $22,579.71.

Captain Dave Fender reported that funds from the original CCAP grant, which had been received in 1995, had provided for the purchase and implementation of facial recognition software, the first of its type in the world. The Captain noted that in the three years following implementation of the system, 283 career criminals had been prosecuted. He advised that this new grant funding would allow the Lakewood Station to update their computer equipment, provide for enhanced use of surveillance photos, and purchase laptop computers that detectives could use in field investigations. He concluded by thanking the City Council for taking a leading role in securing the grant and purchasing the equipment for this tremendous program.

Council Member Piercy inquired how the remainder of the grant would be spent. Captain Fender reported that additional system training would be provided for officers and the business community would also receive training on the optimal placement of surveillance cameras so that images collected could be analyzed using the facial recognition software.
