1.1 • AWARD OF BID FOR PUBLIC WORKS PROJECT NO. 00-5, STANDBY GENERATORS - THE CENTRE AND NIXON YARD (Continued from June 12, 2001)

The Director of Public Works, Lisa Rapp, gave a brief oral presentation based on the memorandum contained in the agenda packet and stated only one bid had been received for the installation of automatic standby generator units for the Centre and the Nixon Yard. She reported that staff had contacted the other contractors who had attended the pre-bid meeting and based on that feedback, was proposing to structure the re-bid so that the two installations could be awarded separately. She also noted, depending on the outcome of the re-bid, that staff would also evaluate if it was feasible and cost effective to complete the installation at the Nixon Yard using City staff. It was the recommendation of staff that the City Council reject the bid submitted by American Electric Company and authorize staff to restructure the project plans and specifications and re-advertise the project.

Mayor Wagner opened the public hearing at 7:38 p.m. and called for anyone in the audience wishing to address the City Council on this matter. There was no response.

COUNCIL MEMBER PIERCY MOVED AND COUNCIL MEMBER ESQUIVEL SECONDED TO CLOSE THE PUBLIC HEARING AND APPROVE STAFF’S RECOMMENDATION TO REJECT THE BID. UPON ROLL CALL VOTE, THE MOTION WAS APPROVED:

He concluded by advising that the provisions of the ordinance would not go into effect until after the next regular General Municipal Election in March of 2003.

2.2 • PROPERTY MAINTENANCE STANDARDS
The Director of Community Development, Chuck Ebner, displayed slides and gave a brief oral presentation based on the memorandum contained in the agenda packet. He stated the Planning and Environment Commission had reviewed a proposed ordinance that would amend the Lakewood Municipal Code to improve property maintenance standards. The ordinance would provide clearer and stronger language that would enable more effective code enforcement against nuisances such as abandoned, destroyed or partially constructed building; unsightly and deficient exterior materials; lack of ground cover in yard areas; deteriorated and unsafe walls and fences; missing broken or deteriorated garage doors; deteriorated or missing driveways; unsightly storage of trash containers; and unsightly overgrown vegetation. He concluded by stating it was the recommendation of the Planning and Environment Commission that the City Council introduce the ordinance and schedule a public hearing for the meeting of July 10, 2001.

The City Attorney advised that providing more specific descriptions of unsightly property conditions would make the Municipal Code better able to withstand a court challenge.

Responding to a question from Mayor Wagner, Mr. Ebner stated that input on the ordinance provisions had been received from John Bax, the Deputy District Attorney who specifically handled code enforcement cases.

The Director of Water Resources, Jim Glancy, displayed slides and gave a brief oral presentation based on the memorandum contained in the agenda packet. He reported that an energy study had been performed in 1996 to determine methods to increase the energy efficiency of water operations. He noted that saving water saved energy since one third of the energy used by the City was utilized to pump water and move it through the pipe system. Staff was recommending that the City Council approve an agreement with HDR Engineering, Inc. in an amount not to exceed $19,695 to update the 1996 study by evaluating potential energy conservation measures and the costs associated with each measure.

Responding to a question from Council Member Rogers, Mr. Glancy stated that it would not take long to recoup the cost of the study since very large increases were expected from Southern California Edison over the next several months.
