He noted that the County Director of Public Works had suggested that the City may wish to exclude certain sections of the building code that had been primarily directed to unincorporated areas of the County and those pertaining to earthquake retrofit which were inapplicable. He advised that the City Council was presented with the ordinances for introduction at this time.

2.3 • FILING OF A PETITION WITH THE STATE WATER RESOURCES BOARD REGARDING THE STANDARD URBAN STORMWATER MITIGATION PLAN

When the matter was heard before the Board in September of 1999, proposed changes to the draft were opposed by Lakewood and many other parties. Despite the concerns raised by cities and other interested parties, on January 26th, the Board gave direction to approve the SUSMP with their modifications. It was the recommendation of staff that the City Council adopt the proposed resolution to join with other cities in appealing for relief to the State Water Resources Control Board from the action taken by the Los Angeles Regional Water Quality Control Board.

3.1 • SCHEDULING SYSTEM ACQUISITION FOR CENTRE AT SYCAMORE PLAZA

Assistant City Administrator Michael Stover presented an oral report based on his memorandum contained in the agenda packet and stated that Hospitality Caterers had agreed, under the terms of its contract with the City, to implement and pay its proportionate cost of a new scheduling system for the Centre. A team of Centre and catering staff had worked together to identify the necessary hardware and software and had seen the software meet rigorous testing at facilities providing services similar to the Centre’s. It was anticipated that the scheduling system would have a demonstrable impact on the bottom line and would improve customer satisfaction. It was the recommendation of staff that the City Council authorize the purchase of the hardware, software, and network integration services; transfer funds from Centre contract services and capital equipment funds; and appropriate $20,063 from the General Fund, to be repaid by the Concessionaire through monthly payments.

Lakewood was eligible to receive a portion of this funding through the County of Los Angeles. It was the recommendation of staff that the City Council authorize the execution of an agreement with the County of Los Angeles for the Census 2000 Outreach.

Maria Vargas, Bureau of the Census, addressed the City Council reporting on the history and purpose of the Census. She stressed the privacy of the information collected by the Census, noting that the information was kept confidential for 72 years, and also how important it was to get an accurate and total count. She concluded by stating the questionnaire would be in the mail by mid-March.

Responding to a question from Vice Mayor Piercy, Ms. Vargas stated that Census figures would go to the President by December 31, 2000 and should be available to cities shortly thereafter.

Senior Planner Sonia Southwell reported that City staff had been working with Census officials to provide a complete and accurate address list to ensure that everyone would receive a questionnaire in the mail. Staff had also used local publications and made presentations to community groups to publicize and inform about the Census. She displayed a slide show prepared for presentation to local community groups.

Mayor Esquivel encouraged everyone to participate in the Census process since an accurate count was so important for Lakewood.
