1.1 • CONSIDERATION OF THE BUDGET FOR FISCAL YEARS 2018-2019 AND 2019-2020

City Manager Thaddeus McCormack displayed slides and made a presentation based on the memo in the agenda. He reported that the proposed budget for fiscal years 2018-19 and 2019-20 had been a result of the culmination of hours of hard work by the City Council and staff which included its development at study sessions in April and two in June. He stated that Lakewood had a history of prudent fiscal management and that because of external factors, such as sluggish sales tax growth and the rising cost of doing business, the City faced the challenge of a structural deficit. He added that a balanced budget would be presented but that authority to move forward over the next fiscal year with developing a plan to eliminate the structural deficit would be requested. Mr. McCormack identified the budget strategies that had been successfully utilized in the past and would be used during the current year and into the future, which included providing municipal services at a level consistent with available resources; saving for unplanned events and emergencies; maintaining public infrastructure; utilizing private companies and other public agencies to provide greater flexibility and cost effectiveness in the delivery of services; supporting and encouraging a strong, viable business community; and promoting citizen volunteerism. He continued by requesting that additional specific strategies be considered by the City Council such as working towards building up General Fund reserves, so as to buffer against the inevitable budget challenges that would occur when the economy went into recession; developing long term strategies to reduce unfunded liabilities, such as future retirement costs; recognizing the dramatic increases to PERS costs now and into the future, and endeavoring to control labor costs through prudent management of employee benefits and careful consideration of actions that might add to the City’s future PERS obligations; and allocating one time revenue for one time expenditures. He added that there had been a modest surplus for the current fiscal year in the amount of $25,000. He pointed out that all cities were experiencing similar issues of external factors affecting the sales tax and costs of doing business and that in dealing with the matter of the structural deficit, it would better position the City to handle it while the economy was by and large robust. He explained that a structural deficit was different from year-to-year shortfall and involved ongoing expenditures outpacing ongoing revenue. He highlighted some of the contributing factors such as elimination of the redevelopment agency; shrinking revenue with online sales depleting situs-based sales tax revenue and the evolution of malls; the need to fund capital improvements; and increased PERS costs. He expressed the need to develop long term, sustainable Structural Deficit Elimination Plan with a focus on essential services and strategies for keeping costs down; looking at organizational structure for opportunities to consolidate and gain efficiencies; a comprehensive Fee and Cost Recovery Study; and identifying possible areas for new revenue. He emphasized the importance of good budgeting noting that Lakewood had remained focused on the core functions of operating a city which resulted in a healthy community for residents and businesses. He described the principles of priority based budgeting which included prioritizing services; doing the important things well; questioning past patterns of spending; spending within the organization’s means; knowing the true cost of doing business; providing transparency of community priorities; providing transparency of service impact; and demanding accountability for results.
1.1 • CONSIDERATION OF BUDGET FOR FY 2018-19 AND 2019-20 - Continued

Jose Gomez, Director of Administrative Services, displayed slides and detailed the City’s operational budget highlighting the General Fund Budget; General Fund Reserves; Water Utility Fund Budget; General Fund Revenue History; Sales Tax Revenue History; and Utility Users Tax Revenue. He stated that some of the significant budget items included CalPERS at $405,300 in FY 2019 & $335,700 in FY 2020; Overtime Budget at $250,000; Los Angeles County Sheriff’s Contract at $215,400; Disposal Services Contract at $203,500 (offset with revenues); Worker’s Compensation Insurance at $123,300; and Municipal Election at $133,500. He identified significant budget cuts/shifts/postponements such as Freezing Positions: $320,000; General Plan amendment: $400,000; CSO Positions: $250,000; Sky Knight Extraordinary Maintenance: $203,000; Replace all City PCs: $185,000; Part-time labor savings: $125,000; Eliminate Contingency Fund: $100,000; Citywide hardscape repairs: $200,000; Street Maintenance: $80,000; and Citywide signage, striping, markings: $40,000.

Mr. McCormack clarified that what had been proposed was to use restricted funds to continue to fund those important activities.

Mr. Gomez reaffirmed that the post budget adoption actions would include developing a long term, sustainable plan; looking to Priority Based Budgeting Principles; focusing on essential services and strategies for keeping costs down; looking at organizational structure for opportunities to consolidate and gain efficiencies; a Comprehensive Fee and Cost Recovery Study, and identifying possible areas for new revenue.

In response to a request from Vice Mayor Rogers regarding surpluses in the water fund, Mr. Gomez stated that part of a comprehensive study that had been presented last year called for significant set asides inclusive of surpluses to reinvest into the infrastructure and, in so doing, would help maintain the rates in the long term. He further explained that from an accounting perspective, it appeared as a surplus, but that it would be added to the City’s reserves or the water utility reserves, specifically, which would then be the basis for allocation and the resources for capital improvement projects.

Mayor Croft added that when the water study had been conducted, the capital needs were on the average of about $2.5 million annually.

Steve Skolnik, Office of the City Attorney, reported that the agenda packet included proposed budget resolutions, one of which contained a calculation required to be done annually of the Gann limitation. He advised the remaining items included various resolutions as well as individual contractual items requiring action as part of the budget process, and that following a public hearing for any public comments, the City Council could elect to approve all of the items under Section e with a single motion and vote.

Mayor Croft opened the public hearing at 8:20 p.m. and called for anyone in the audience wishing to address the City Council on this matter.

Vice Mayor Rogers thanked the City Manager and the Administrative Services Director for the comprehensive reports and the efforts of staff on the budget as presented. He added that at previous study sessions, it had been noted that Lakewood’s core values included a consistently balanced budget and being conservative in terms of managing the community’s resources. He cited that there would be some difficulties both internally and in the community while efforts were made to find long term solutions for dealing with the structural deficit, the culpability of which could be placed on the State’s having taken twenty five percent of general fund reserves and over $2 million a year. He stated the importance of balancing the budget, being prudent with City resources and being good fiscal stewards for the community.

Council Member Piazza encouraged residents to weigh in on the different options when the difficult decisions relating to cuts to programs would have to be considered.

Council Member DuBois expressed gratitude to staff in providing a budget that could be approved and noted the future difficulties to be faced together.

Council Member Wood congratulated the City Manager and the Director of Administrative Services on their first budget and expressed appreciation for their efforts to listen to the City Council’s concerns and always putting the residents first.
