What I Like About Lakewood On of the best city in California!

The city of Lakewood is a gorgeous place. Here in the city of Lakewood, it feels safe and secure. In our city named Lakewood where you could come to the city and see a clean place. The parks are clean and there are beautiful plants and gorgeous green grass. Also Lakewood has a wonderful library that gives homework help to children that are having a hard time on their homework. Also the city called Lakewood is where my school, Aloha Elementary, which is a very great school in my opinion anyway.

Not only is the city of Lakewood safe, clean, and secure, but in Lakewood there is a great mall. Inside the mall you could shop till you drop and still feel safe no matter what you do. Anyway as we go a little further in the city of Lakewood there is a horse ranch where you could ride a horse or even learn horseback riding there, and also it is a lot of fun. The city of Lakewood is pretty much a new city also if you don't know. On the other hand, the mayor is Joseph Esquivel. Probably without him our little brand new city that is here today would have been dirty, gloomy, and disgusting, but instead our city is clean and gorgeous as you could look around you!!

So that is why I like living in Lakewood. However, you could see that the city of Lakewood is a brand new city and see that it is clean most of the time. In the city of Lakewood you could feel that in the city of Lakewood it is safe and secure. If you need help on homework, you could go to the city of Lakewood's library, where they can help you on almost anything. Also in the city of Lakewood there is a fabulous mall where you could buy clothes, shoes, eat, or even hang out there just to cool down yourself.

In the city of Lakewood there is a beautiful park. In the park you could do almost everything there. In the Lakewood park you could roller blade, ride a bike, scooter, horseback riding, have a party, jog, walk a dog, play on the playground, do work, lay down, take pictures, draw the beautiful landscapes, admire the gorgeous yard work, hang out, make sand castles, eat ice cream, have a barbecue, exercise, and so much more.

So that is what I like about the city of Lakewood. I love living in the city of Lakewood because all of the clean areas, the beautiful horse ranch which has beautiful horses there for you to ride, the helpful libraries that help you on homework when you need it, and gorgeous parks where you could do almost anything, and so many many more! So check out the cool city of Lakewood!! Because it is the coolest and cleanest town I have ever known in California!!

What I Like about Lakewood

Anthony Jarvis - Aloha Elementary

I think Lakewood is a wonderful city with its amazing delights. Lakewood has wonderful parks with amazing people. Some of the parks are like bloom field park which is really fun to go to. Lakewood has very nice stores and restaurant that have really good food. There's a nice police department and a fire department with very hard workers that keep Lakewood safe.

All of the fire fighters and police men work very hard to keep bad people out of our neighborhood. Lakewood has great grocery stores that supply us with our everyday needs. Lakewood has a good movie theater that has cool movies. lakewood has good candy stores because the people are nice and sometimes will give you candy for cheaper if you don't have enough money. Lakewood has very good fast food restaurant.

The kids here are nice and fun to play with. I like the skate parks that are very fun. I like the Lakewood mall because you could buy a lot of cool stuff like spots stuff or video games. I like skate depot because it is fun to just go roller skating for a while. I like the schools that teach you stuff that you will use later in the future.

I like the video game store that have really cool video games. I like the school playground and equipment. I like the houses because they are not to small and not to big. Lakewood has very good liquor stores that have a lot of good candy. Lakewood has good ice cream shops that have really good ice cream.

Lakewood has good gas stations but sometimes the gas cost a lot but I remember one time when the gas was only 89 cents. Lakewood has great schools with nice teachers and good computers. The schools also have good books that are fun to read. Lakewood has very kind people and it doesn't have a lot of mean people or gangsters. Lakewood has very fun places to go.

There are some really funny places that I like to go. In lake wood there is a good laundry matt that is really cheap so you wont have to go waist a lot of money washing cloths. In Lakewood there are good haircut places that cost a little bit but still give you a good hair cut. There are good traffic lights that keep everyone from crashing into each other in their cars. Lakewood has good apartments that are fun to go to and play with all the other kids because there's a lot of kids to play with because a lot of people live there.

I like to play with my friends that live in Lakewood because all of my friends are really nice but sometimes they can be very mean but most of the time they are nice. lakewood is a very fun city that I love living in. these are some things that I like a lot about Lakewood. The end.

LAKWOOD PEOPLE WE ADMIRE

YES ! I said . My mom had given me permission to spend the night at my friend's house in the tent .I grabbed my sleeping bag and a pillow I got my bike and left to my friends house , when I got there they were putting the tent together they said would you like help?Yes, I said after we put it together we started to make our beds we put a radio and a t.v. inside the tent, but we didn't have a extension cord to connect the radio so it could work. I said" I have one at home let's go get it ,ok my friends said we got our bikes and we went to my house , when we got there we saw a guy fixing a car and we left our bikes out side,we got the extension cord and when we came out side the guy that was fixing the car had got my friend's bike we saw him turning at the corner with my friend's bike, my friend got my bike and went after him,I was really scare, I ran to my friend's dad and told him what happened, he got his car and started to look for the bike. we couldn't find him while we were looking for the bike we saw the guy that had stolen the bike but he didn't have it with him me and my friends thought that he had hidden the bike somewhere so we started to look for the bike we didn't find it thats' when the police started to help us look for the bike so that's why admire the police from lakewood and that's why I'm writing this paper.

The next day we got up and went looking for the bike we saw these apartments that looked really suspicious me and my friends went in the apartments and we saw the bike on the floor we got it and left we reported to the police that we had found the bike inside this apartments so we got it and left and the police was really happy.

Dedicating our Flags in Lakewood

I still remember and always will remember the day our school and all the others in Lakewood received a flag that flew over Washington D.C. This is how it all began.

I finally became president of the school when the principle asked me to go with him to Artesia High School to receive a flag. Not just any old flag, but a flag that flew over Washington D.C! So I accepted. But I had no idea that I was supposed to go in front of many different people.

On the day after our principle told me that I had to go in front of many people and I went "OOOHHH!!!" I was frightened. Once I got home I told my mom and dad if they would let me go. I waited. Suddenly an "O.K" came out of there mouths. "Yes!" I yelled happily.

I couldn't believe I was going to receive a flag that flew over Washington D.C.

The day finally came, I was nervous that I was going to trip or something! My mom drove me to Artesia High and asked for directions on where we were supposed to go. They told us to wait in the stands for our principle.

I ate Hot Cheetos while we waited, finally Mr. McCoy came. My mom helped us build our stand of our school. Mr. McCoy said it was time to go inside a room for a big banquet. We went inside where there were different schools, like a principle and a student from each school. We all ate the different types of food. After we all ate we were moved to a gym of the school. There we had a performance of young kids playing music. There was a stage with boxes on it. In side were the flags.

There was a man who was calling each school in order from Elementary, Middle school, then high school. Every student and principle received a flag from the man.

They finally called Aloha. My heart was beating hard, I was very nervous. My dad called out my name "Go Ceci!!" I felt a bit better but a bit embarrassed. I finally received the flag. I was very happy! Mr. McCoy opened the box that we got. Inside was the flag that flew over Washington D.C! I was able to touch it very carefully. After every school was called the band playd another song for us. It was very nice.

When it was all finished my dad started running to Mr. McCoy and I and said "I am very proud of you." We all went home.

At school we had assembly we said the pledge and sang America the Beautiful, As we raised up the flag that we received. At this point we still have the same flag watching our school. It's home. We are all happy of The flags that came from Washington D.C to Lakewood. Now every school in Lakewood has a new flag. Thank you Lakewood and Linda Sanchez, mostly Lakewood.

What I Like about Lakewood

I like Lakewood because when we play in the streets we have space to run, people do not argue and we work together as a community. The streets are very, very clean and very safe. The schools are clean and the teachers are nice and they help you get ready for the future.

Our parks are also clean and we have very nice people that work and help very much there. They have a lot of activities to play with they also give you the supplies you need to play a game. The other park in Lakewood has a lot of party space and walking or running space. It is huge. It has almost every activity you can play. And it has a lot of baseball, soccer, and kickball space. The park even has it's own tennis and basketball space.

I like the Lakewood Mall because it is safe, clean, and a lot of fun. When I go the security is making sure that everybody is safe. And if somebody is lost you can go to them and they will help you find the person that you need. The Lakewood police are very nice and fun to talk with and you can go to them any time you need to talk.

The parks have free teams that you can join all you have to do is sign up and show up. They also have fun baseball teams. They sale ice-cream for fifty cents. they let you watch cool movies for free. I saw some movies over their, they also gave us a snack, but it only cost a dollar.

I like so many things about Lakewood I can not express it on only two pieces of paper, but I will try to. The

most that I like is how many good people that are living in Lakewood. Like the Police Officers of Lakewood for letting them talk to you when you need somebody to talk to, they are their for you.

I like almost everybody in lakewood that is nice. And if they do not complain to you when you are playing out in the street. Our when you hit somebody's window you will have to pay but they will not be so hard on you. Like last year when I hit somebody's window and I made a crack in it the person was not so hard on me they just told me that I have to pay.

I did pay, buy the time I paid they already had the window fixed. They said that I can keep my money but if I did it one more time I would definitely have to pay. They where not rude to me at all, that was pretty nice that they did let me keep my money, lets face it I know that I would of kept the money. People only are like that at Lakewood. That is what I definitely like about our city Lakewood.
