NEW CONSTRUCTION

1. Every sleeping room below the fourth story shall have at least one operable window or exterior door approved for emergency escape or rescue.

2. **EMERGENCY ESCAPES:** In every bedroom and basement, provide one operable escape window or door meeting all the following: an operable area of not less than 5.7 sq. ft. (1st floor egress windows can be 5.0 sq. ft.) The minimum clear height shall be 24 inches and the minimum clear width shall be 20 inches. The bottom of the clear opening cannot be greater than 44 inches above the floor. **Note:** a 24” x 20” window will not meet the minimum size requirements of 5.0 sq.ft. (24” x 20” = 3.33 sq. ft.). Bars, grilles, grates or similar devices shall have approved release mechanisms operable from the inside.

   ![Diagram of emergency escape openings]

   **Note:** Exterior glazed openings of habitable rooms must be 8% for light, half of which must be operable for ventilation.

   See Section R310 of the 2020 Los Angeles County Residential Code (Title 30) for exceptions.

3. Emergency escape openings shall be operable from the inside without the use of separate
tools. Sliding glass doors may have key locking hardware if the bedroom is protected by smoke detectors.

WINDOW CHANGE OUT IN EXISTING CONSTRUCTION

1. Regardless of when the original construction permit was issued, replacing (window change out) and/or relocating existing emergency escape and rescue windows shall comply with Section R310 of 2020 Los Angeles County Residential Code (Title 30). At least one window shall comply with the minimum size, minimum dimensions, maximum height from floor and operational constraints. All other windows may be replaced and/or relocated with the same size or larger.

FOR COMPLETE INFORMATION, REFER TO THE RESIDENTIAL CODE.

LIGHT AND VENTILATION REQUIREMENTS

1. Habitable rooms (living room, kitchen, bedroom, etc.) shall be provided with natural light from exterior openings not less than 8% of the floor area of the room served. Openable area shall be not less than 4% of the floor area. Mechanical ventilation may be provided in lieu of the required operable area.

2. Bathrooms, water closet compartments, and similar rooms shall be provided with ventilation from openable exterior openings with an area not less than 3 square feet, one half of which is openable. The glazed areas are not required where artificial light and mechanical ventilation of 50 CFM (cubic feet per minute) intermittent or 25 CFM continuous ventilation are provided.

TEMPERED GLASS REQUIREMENTS

1. Any window less than 18 inches in height from a walking surface.
2. Any window less than 24 inches from any door.
3. Any window over a bathtub or shower less than 5 feet from the floor of the shower or bathtub.
4. Any window within 40 inches of a locking device.

(2020 County of Los Angeles Building Code)
REPLACEMENT OF WINDOWS

All replacement windows, and added glazed areas up to 75 ft², must conform to the 2019 Building Energy Efficiency Standards. The requirements are found in the highlighted column of the chart below. Following the chart, is an example of where to find these numbers on the energy sticker that will be attached to the new windows.

Exemption: Replacing a portion of the glazing within a single opening, without altering the frame.

Manufacturer stipulates that these ratings conform to applicable NFRC procedures for determining whole product performance. NFRC ratings are determined for a fixed set of environmental conditions and a specific product size. NFRC does not recommend any product and does not warrant the suitability of any product for any specific use. Consult manufacturer’s literature for other product performance information.

EXAMPLE NFRC Temporary Label
WINDOWS/NEW EXTERIOR DOORS/FRENCH DOORS

Windows being replaced, like for like:
- Need to provide a floor plan OR LA County Window Replacement Form
- Plan check required.
- Issue building permit, collect a plan check and building permit fee with energy and other applicable fees

Windows being changed in size, operation, or location:
- Need to provide a floor plan OR LA County Window Replacement Form
- Plan check required.
- Issue building permit, collect a plan check and building permit fee with energy and other applicable fees.

New exterior doors / French doors
- Provide site / floor plan.
- Planning review: for turning radius and yard encroachment.
- Plan Checker to review.
- Issue a building permit, collect a plan check and permit fee with energy and other applicable fees.

*Legality of structures on site not verified or approved by window replacement form
406.3 Replacement window emergency escape and rescue openings. Where windows are required to provide emergency escape and rescue openings in Group R-2 and R-3 occupancies, replacement windows shall be exempt from the requirements of Sections 1030.2, 1030.3 and 1030.5 provided the replacement window meets the following conditions:

1. The replacement window is the manufacturer’s largest standard size window that will fit within the existing frame or existing rough opening. The replacement window shall be permitted to be of the same operating style as the existing window or a style that provides for an equal or greater window opening area than the existing window.

2. The replacement of the window is not part of a change of occupancy.
