

STATEMENT OF VERONICA LUCIO
CANDIDATE FOR MEMBER OF THE CITY COUNCIL,
5th District
LAKWOOD CITY GENERAL MUNICIPAL ELECTION

For the past eight years I have had the honor and pleasure of serving the Lakewood community as a music teacher, working to improve the quality of education for our students. This past year I began working with our Recreation and Community Services Department as a commissioner, working to improve and expand the quality of programs and services available to our residents. Now I look to help my entire district as a city council member.

In these post-covid times our city has remained focused on the Lakewood values I strive to maintain. Community involvement, volunteerism, park upgrades and other city improvements and safety. These core values are why residents stay in our city and raise their families, making Lakewood their forever home. My husband and I have lived in Lakewood for seventeen years and now as parents, hope to keep our family here for generations to come.

As a member of the city council for East Lakewood I would ensure that the city continues to improve streets, parks and community safety in our district and that we have a strong voice in all civic matters. I ask for your vote on June 7.
