December 8, 2015

The Honorable Mayor and City Council City of Lakewood Lakewood, California

TRANSMITTAL LETTER

State law requires that all general-purpose local governments publish within six months of the close of the fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted government auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Lakewood for the fiscal year ended June 30, 2015.

This report consists of management's representations concerning the finances of the City of Lakewood. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, management of the City of Lakewood has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Lakewood's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Lakewood's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Lakewood's financial statements have been audited by the Pun Group, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Lakewood for the fiscal year ended June 30, 2015 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statements presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering unmodified opinions that the City of

Lakewood's financial statements for the fiscal year ended June 30, 2015 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The "Single Audit" is a single organization-wide financial and compliance audit designed to promote sound financial management and effective internal controls with respect to federal awards administered by the City of Lakewood and focuses on compliance with laws and regulations governing federal awards. Internal controls encompass a system of accounting and administrative controls. Compliance refers to how well the City complies with the requirements in federal law, regulations, contracts, and grants applicable to each of its federal programs. These reports are available in the City of Lakewood's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Lakewood's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

The City of Lakewood, incorporated in 1954, is located in Southern Los Angeles County, 20 miles south of the City of Los Angeles. Lakewood enjoys the benefits of the diversified economy of Southern California. The City is primarily a bedroom community providing housing for the Southern California subregion. The City of Lakewood occupies a land area of 9.5 square miles and serves a population of 81,601 as of January 1, 2015.

The City of Lakewood has operated under the council-manager form of government since its incorporation. The City is a "contract city," having been the first in the country to adopt this form of government. John Stanford Todd's contributions to Lakewood and city government are now honored by two John Sanford Todd Memorial Highway signs located near the northern and southern borders of Lakewood along the 605 freeway. Policy-making and legislative authority are vested in a governing council consisting of five members. The governing council is responsible for, among other things, passing ordinances, adopting the budget, appointing committees and hiring both the City Manager and City Attorney. The City Manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments. The Council is elected on a non-partisan basis. Council members serve four-year overlapping terms. The mayor is selected by the council from among its members and serves in that capacity for a one-year term.

The City of Lakewood provides a full range of services, including police protection, solid waste collection, construction and maintenance of highways, streets and infrastructure, planning and zoning activities, utilities (water), recreational activities, cultural events, housing and general administrative services. The City of Lakewood is a "contract" city, meaning that some of these services are provided by contract with other agencies (both public and private) and some services are delivered by the City's own employees. Library services, fire protection services, and sewer services are provided by special districts of the County of Los Angeles. The City has excluded the

County of Los Angeles, as well as the State of California and various school districts, because they do not meet the established criteria for inclusion in the report.

The annual budget serves as the foundation for the City of Lakewood's financial planning and control. All departments of the City are required to submit requests for appropriation to the City Manager for inclusion in the annual budget. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager then presents a proposed budget to the Council for review prior to June 30. The Council is required to hold a public hearing on the proposed budget and to adopt a final budget by no later than June 30, the close of the City's fiscal year. The appropriated budget is prepared by fund, function (e.g., solid waste collection), and department (e.g., public works). The City Manager may authorize transfers of appropriations within and between departments within funds. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented under the required supplementary information in the financial section of this report. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the supplementary schedules section of this report.

ASSESSING THE CITY'S ECONOMIC CONDITION AND OUTLOOK

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Lakewood operates.

The City of Lakewood is primarily residential a community with only six percent of the city zoned for commercial use. The city is home to the seventeenth largest mall in the United States with about 2.1 million square feet of retail space, which is strategically located in the center of the city. By the end

of the 1990's, Lakewood "built out," leaving very little of the 9.5 square miles of the city available for new development.

For the City of Lakewood, retail sales is the economic indicator that best heralds the City's financial situation. Sales tax revenues account for 31 percent of General Fund revenues. There are over 3,000 businesses (including home occupations) located in Lakewood generating \$13.2 million in sales tax for the City in Fiscal Year 2014-2015. The economic base of Lakewood is largely retail and the City's "top twenty-five" retail businesses as a group produce 53 percent of the City's sales tax revenues.

The City is expecting to see a slowing or leveling-off of sales tax revenue stemming from the continued migration of consumers away from traditional brick-andmortar businesses to online shopping. The recently amended biennial budget for Fiscal Years 2014-2015 and 2015-2016 takes this change in consumers shopping habits into consideration and budgeted increases in sales tax revenue is projected at 3.3 percent over the two years.

Lakewood will continue to benefit greatly from a popular regional shopping center and several smaller commercial plazas, but over time the loss of sales-tax revenue to online shopping may have an increasing impact on the City's revenue.

Economic development in the City added several retailers in the past year, expanding opportunities for shopping and dining, as well as adding over 697 jobs from 195 new Lakewood businesses in Lakewood. This built on the more than 2,000 jobs that new businesses brought to Lakewood the past four years. Among the biggest new employers are Stone Fire Grill with 100 new jobs, Harvest Pantry with 60 new jobs, Jimmy John's with 36 new jobs, TFC Manufacturing, Inc. with 75 new Lakewood jobs in addition to the 130 jobs they already employ on Industry Avenue.

The City is a low property tax city, which means the City assessed a small municipal property tax prior to 1978-79 that has been folded into the tax base under Prop 13. Today, the City relies on a small 5.84 percent share of the county collections – the fifth lowest in the County. The County Assessor increased property tax assessments by a CPI of 1.998 percent from 2014-2015 to 2015-2016. Property tax assessments were lowered in the last recession by the 1978 Prop 8 reductions, where the lesser of the adjusted base year value or market value is used for taxation. Prop 8

reductions still offset a majority of the increase by reducing the assessed valuation by \$250 million on ten percent of the parcels in the city. However, the recapture of value on formerly designated Prop 8 parcels was the third largest factor in increasing the property values by \$97.6 million in 2015-2016. The two factors, transfer top of ownership of \$147 million and CPI increase of \$125 million, largely accounted for the overall taxable value increase of \$399 million. The main driver of the increase was residential properties at \$371

million, followed by commercial and industrial at \$31 million.

The total assessed value of real property in the city was \$8.3 billion for Fiscal Year 2015-2016, a 5.1 percent increase from the previous year. The growth in the City's assessed value of 5.1 percent was outpaced by the County which increased by 6.1 percent.

In calendar year 2015, the

median single family Lakewood home is selling for \$470,500, a 6.8 percent increase from 2014. Home sales remained flat over the past year.

In Fiscal Year 2012-2013, the City of Lakewood began to receive residual property tax from the dissolution of the Lakewood Redevelopment Agency. Additionally, the property tax increment formerly held by the Lakewood Redevelopment Agency was disbursed to all other local taxing agencies. The City's share of these disbursements amounted to \$404,967 in Fiscal Year 2012-2013, and \$76,392 and \$90,184 in the two following fiscal years. Future annual disbursements of residual property tax are expected to increase slightly over ten years eventually reaching about \$350,000, and continuing at that level into future years.

In an effort to retain full value of local property tax receipts, in Fiscal Year 2007-2008 the City joined in a Collective Action against Los Angeles County regarding property tax administration fees. The case was settled in Fiscal Year 2012-2013 resulting in a refund to the City of \$804,544 in excess property tax fees. The settlement also resulted in an on-going annual reduction of \$150,000 of the property tax administrative fee.

Property tax revenue in Fiscal Year 2014-2015 exceeded expectations by 3.4 percent, and is expected to increase by 2.7 percent in Fiscal Year 2015-2016. Property tax revenue accounts for 9.3 percent of General Fund revenues. Since the approval of the 2004 Prop 1A and subsequent implementation of the "triple-flip," changes in property tax valuation have a greater impact. Under the "triple-flip," vehicle license fee revenue growth is tied to property tax growth. Property

v

tax in-lieu of vehicle license fees accounts for an additional 16.1 percent of General Fund revenues.

Building permits issued by the City remains well below the peak reached in Fiscal Year 2004-2005. During Fiscal Year 2014-2015, 3,457 construction and remodeling permits were issued, which continued the recent multi-year upward trend of building activity.

City revenues are also affected by changes in the commodity markets. The City's

assessed utility users tax represents 7.44 percent of General Fund revenues. The three percent tax is assessed on communications, electricity, natural gas and water use. Natural gas prices continue to be at low levels resulting in \$172,030 less natural gas utility users tax revenues from what was received in Fiscal Year 2007-2008. The decline in natural gas prices has also affected the City's franchise fee collections. Natural gas franchise fees remain below revenues received in Fiscal Year 2006-2007 by \$93,270.

The use of other types of communications has also reduced the amount of utility users tax collected. Over the past several years, prepaid wireless service has gone from being a small segment of the wireless market to a major share. Now, more than 50 percent of all new wireless sales are prepaid, and over 30 percent of all new smartphones are prepaid. This rapid development of the prepaid market has cut into the utility users tax collected for

communications. Since Fiscal Year 2009-2010, utility users tax collected on communications has dropped by \$361,350. It is hoped that the implementation of AB 1717 will reverse this trend by requiring merchants to collect the utility tax at the point of sale to then be distributed to the City through the State Board of Equalization.

Lakewood's employment rate depends on the regional job situation. In September 2015, the U.S. Department of Defense granted \$3.9 million to help the City of Long Beach develop an economic transition plan following the closure of Boeing's C-17 facilities. Mercedes-Benz USA recently established its western regional offices at the former Boeing 717 plane factory in Long Beach. The new location will centralize several business units and consolidate 200 jobs throughout Southern California at the 52.2-acre site, to be used as a vehicle preparation facility, the regional office for the western United States and training center. The vehicle preparation center will serve as the first stop for new vehicles that are destined for dealerships throughout the U.S. Douglas Park, another former Long Beach Boeing site, is slowly being transformed into a mixed-use development for office, retail and industrial use, including a recently opened Courtyard by Marriott.

The Port of Long Beach is a vast provider of employment opportunities throughout the county and state. In the local area, the port operations support 30,000 jobs. The more than \$180 billion worth of cargo that moves through the port every year creates jobs, supports retail and manufacturing businesses and generates tax revenues. After a 30 percent decline from 2007 through 2009, trade volumes through the Port of Long Beach have regained much of this loss; further north, the Port of Los Angeles has similarly regained losses experienced during the last recession.

For the first nine months of the 2015 calendar year, Long Beach Port activity was up 5.2 percent overall, compared to the same period in 2014. The "peak season" of August through October is generally the busiest time of year for the ports, largely due to imports arriving for the holiday shopping season. Cargo container numbers rose four percent overall in September 2015 at the Port of Long Beach, compared to the same month last year.

The Port of Long Beach is investing \$1.3 billion to build a new bridge to span the Port's Back Channel. The Port is also modernizing two aging shipping terminals by adding on-dock rail capacity, shore power hookups and a new longer wharf to move twice the cargo with half the air pollution – the first phase of the project at a cost of \$1.3 billion is set to open late this

year and the entire project is scheduled to be completed in 2019. A multi-year renovation of the ITS container terminal is also underway. A new on-dock rail yard has been completed, nearly doubling the terminal's capacity for on-dock rail, and to come are additional shore power facilities and container yard space.

In 2009, the Legislature passed program to counteract the financial incentives offered by other states to lure film production away from the Los Angeles County region by offering tax credits to a limited range of qualifying productions. In 2014, Governor Jerry Brown signed the *California Film & Television Job Retention and Promotion Act* increasing funding in 2016 to \$330 million per year and granting an extension of the film and television tax credit program through July 2020. The bill had the support of the business and labor community across California because of its focus on high-wage jobs for below-the-line workers. The Southern California Association of Governments (SCAG) released a study, which was conducted by the LAEDC's Economic & Policy Analysis Group, assessing the impact of California's Film and Television Tax Credit Program. The study found that for each \$1 of tax credit certificate issued total economic activity in the state increased by \$19.

Hospitals are hubs of employment, purchasers of goods and services, and generators of tax revenue. The estimated total economic output of hospitals and related services in the Los Angeles region accounts for about 11 percent of the region's economy and provides over 380,000 jobs. The area's local hospital, Lakewood Regional Medical Center, received an "A" in The Leapfrog Group's Spring 2014 Hospital Safety Score (one of the nation's leading patient safety advocacy organizations). The A rating recognizes Lakewood Regional Medical Center's commitment to

providing safe, quality healthcare to patients. The Medical Center has also received awards from the American Heart Association and CIGNA Centers of Excellence

The unemployment rate in Lakewood dropped to 5.8 percent in August 2015; better than the state as a whole, but above the rate the City has enjoyed in the past. labor force The participation has also rebounded 3.6 percent after declining by nine during percent the recession.

Major employers located within city limits are Long Beach Unified School District, County of Los Angeles, Lakewood Regional Medical Center, and various retail, automotive and home improvement businesses, as well as the City itself.

The April to April Consumer Price Index (CPI) for the Los Angeles, Riverside and Orange County region, which is the basis for many of the City's contract increases, was 0.5 percent in 2015. The CPI for the Nation, as well as for the region, is expected to remain relatively low in the coming years.

Economic Outlook

The U.S. economy had shown resilience given global concerns, but is showing signs of slowing. GDP grew at a 1.5 percent pace in the third quarter of 2015, after increasing 3.9 percent in the second. Job growth also continues with employers adding an average 206,000 jobs during the past ten months and unemployment has fallen to five percent. UCLA Anderson Forecast projected economic growth, GDP, will be in the two percent range in 2016, and anticipates an improving labor market with a rising employment to population ratio and a declining unemployment rate - unemployment is expected to fall to 4.8 percent by 2017.

The UCLA Anderson's California Forecast estimates total employment growth for California at 2.7 percent in 2015, 2.2 percent in 2016 and 1.4 percent in 2017. Real personal income growth is estimated to be 4.6 percent in 2015 and forecast to be in the low four percent range in 2016 and 2017. The unemployment rate for California is expected drop below six percent by the end of 2015, fall throughout the next year and average 5.2 percent, and to be approximately 4.8 percent in

2017, same as in the U.S. Housing prices will continue to rise in California as the state continues to face a shortage of new homes.

Beacon Economics reported that the Los Angeles County's nonfarm employment base grew by 2.1 percent from September 2014 to September 2015, adding 89,200 jobs over the year. Year-over-year job growth was slightly more pronounced in the private sector (2.3 percent) than in Government sector establishments (0.9 percent). Employment in the Private Education and Health Care Services sector provided the most new positions in Los Angeles County, growing by 3.4 percent, or 25,800 jobs. Many industry experts have projected a shortage of medical field workers due to an increasing number of retiring baby boomers and because of additional demand resulting from the recently implemented Affordable Care Act. Beacon Economics projects nonfarm employment to grow at a pace of between 1.6 percent and 1.8 percent over the next year and at a similar pace over the next five years, with the unemployment rate reaching six percent by mid-2018.

Beacon Economics is projecting per capita personal income in Los Angeles County to grow by three percent from 2015 2016 (it grew by an estimated 2.4 percent the previous year). And with household income finally starting to show strong growth across many income groups, Beacon Economics projects taxable sales to grow by 2.7 percent next year and upwards of 3.5 percent per year through 2020. Hopefully this translates into continued revenue growth for the City of Lakewood, specifically sales tax, the City's largest revenue source.

LONG-TERM FINANCIAL PLANNING

Long-term financial planning involves the management of the City's programs and assets. Programs include the services the City provides through its employees and contracts. Assets include cash and investments, as well as the City's entire infrastructure of streets, street lighting, signals, medians, signage, parks, recreation facilities, water mains, trees sidewalks and bus stops, etc. Long-term debt, pension and post-employment benefits, and the depreciation and deterioration of the above named tangible assets, are also included in the long-term financial plan. The City's policies provide parameters that reflect the City's management and fiscal philosophy.

The City's financial and operating budget policies serve as the guiding principles for the City's financial management and annual budgetary process. The financial policy is written with the

objective to maintain or improve an entity's financial position, financial management and credit rating. The operating budget policy, along with the City's purchasing policy, is written with the objective to promote good stewardship in the management of public funds and resources.

The City's cash and investment policy is written with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints, liquidity needs and cash flow characteristics of the portfolio. Return on investment is of secondary importance compared to safety and liquidity objectives.

The City's governmental fund balance policy is written with the objective to retain the proper levels of reserves for economic uncertainty (20 percent of operational costs), unforeseen capital expenditures and repairs, emergency response services, and pension obligations.

The City's capital financing and debt management policy is written with the objective to set guidelines as to the financing of capital expenditures and long-term capital planning.

The City's capital improvement program and replacement of assets policy provides guidance as to the objectives capital improvements shall meet. Capital improvement projects typically involve large outlays and cover multiple years. Although, capital improvements are considered apart from the operating budget of the City, the operating budget is developed so that the City maintains a structural surplus to fund capital projects. In addition, Lakewood staff is encouraged and readily takes the steps necessary to acquire new, and retain current funding sources. New funding possibilities include various one-time competitive grants and on-going block grants. These grants fund public works projects, park and recreation facilities, and public safety, transportation and housing programs.

Street and traffic signal improvements:

- In January 2013, the City of Lakewood hit the milestone of repaying 100 percent of all residential streets in Lakewood since 2000. Over 143 miles of residential streets have been resurfaced with rubberized asphalt, which recycled over 600,000 old tires and kept them out of landfills. Street repaying of several major streets will resumed in Fiscal Year 2014-2015 with a major portion of Del Amo Boulevard getting resurfaced and repaired and Woodruff Avenue is lined up for repaying in 2016.
- Lakewood also continued its sidewalk work in Fiscal Year 2014-2015, repairing 1.2 miles of walkways.

Parks and community facilities projects:

- The City completed the final phase of the West San Gabriel River Parkway Nature Trail project, located between Candlewood Street and Del Amo Boulevard. The final half mile phase of trail is opened in April 2015. This project was funded with state and county grants secured by the City.
- The City continued annual improvements to The Centre at Sycamore Plaza to keep it looking sharp and working well as Lakewood's premier meeting and banquet location.
- Veterans Memorial Plaza at Del Valle Park was renovated and expanded in early 2015 in time for Memorial Day. The work included the full restoration of Lakewood's Korean War-era jet plane, which was removed from its pedestal and transported to Arizona for refurbishment.

Water system improvements:

- Lakewood continued its longstanding program of modernizing its city water system, making infrastructure improvements that will ensure the reliability and safety of its water system.
- The Plant 13 water project to install new booster pumps, motors, control and associated equipment is under way and scheduled to be finished by spring 2016. The new pumping facilities will provide more reliable service and reduce electricity costs to the water system.
- The Well 22 water project to install a new variable frequency drive and upgrade chemical feed will enhance water quality control and well reliability.
- Used federal grant funds to replace residential and commercial water meters in the South Street and Downey Avenue area with advanced technology meters capable of measuring hourly water use and providing direct customer access to monitor individual use.
- Replaced 2.5 miles of water mains in the area of Downey Avenue and Centralia Street that were installed in the 1950s with 8-inch diameter PVC pipe. This includes replacing all of valves, fire hydrants and service lines.
- Leased 3,000 acre-feet of water at \$230 per acre-foot to other water utilities thereby bringing in operating revenues of \$690,000 to the water utility fund.

Residential housing projects:

- The Home Improvement Loans and Fix Up Paint Up Program can lend up to \$18,000 for home improvements to eligible homeowners, and the Fix Up Paint Up program offers grants of up to \$3,000 to complete exterior repairs for eligible homeowners many who are elderly and disabled residents who cannot cope with property upkeep. Both of these programs will remain available to the residents of Lakewood through the Successor Housing Agency.
- A 72-unit, three-story tall townhouse project equipped with solar panels on every unit and all electric utilities was constructed in 2015 on the south side of South Street west of Downey Avenue and sales on the new units went briskly.

Redevelopment:

In 2011, California enacted legislation that required the dissolution of all redevelopment agencies. AB x1 26 dissolved redevelopment agencies as of February 1, 2012, and provided for the designation of successor agencies which were tasked to wind down the affairs of the dissolved redevelopment agencies. Under AB x1 26, the dissolution of redevelopment included the determination that all contracts and agreements between the City and the Lakewood Redevelopment Agency were null and void. Subsequently, AB 1484 provided for a small level of funding for housing operations that resumed in Fiscal Year 2013-2014 using housing loan payments, and SB 107 in 2015 allowed for the payment of all outstanding loans made by the City to the Agency as recalculated using four percent rate over the life of the loan. Once the Finding of Completion is issued by the Department of Finance (DOF) additional funds will be available to fund the city's housing capital programs through reimbursement of deferred housing transfers to pay for ERAF, SERAF transfers to the State, and other postponements. City Loan debt service payments can resume once the housing deferrals have been fully paid; 20 percent of the debt service payments are required to fund housing operations and capital.

Long-term Debt:

Long-term debt is limited to the City's Water Enterprise and the Successor Agency of the former Redevelopment Agency. More detailed information regarding the City's and Agency's long-term debt is presented in the notes to the basic financial statements.

The Agency also holds debt in the form of City loans. As referenced in the prior section, SB 107 allows for the payment of all outstanding loans made by the City to the Agency as recalculated using four percent rate over the life of the loan. Loan payments to the City can resume once the housing deferrals have been fully paid; 20 percent of the loan payments are required to fund housing operations and capital.

Pension and Other Post Employment Benefit Liabilities:

The City provides three retirement benefit programs. The City takes measures to ensure that the City's retirement benefit plans are financially secure and well funded. These programs are as follows:

- California Public Employee Retirement System (CalPERS) is a two percent at 55 pension plan for "classic" CalPERS members, and two percent at 62 pension plan for new members as defined by the Public Employees Pension Reform Act (PEPRA), who are employees that have never been a member of CalPERS or who had a break in service of six months or greater. This Plan is 82.46 percent funded as of June 30, 2014, per the CalPERS GASB 68 Accounting Valuation Report and the market value of assets.
- PARS Retirement Enhancement Plan is a 0.5 percent at 60 pension plan. The PARS Plan was established in 2004 and is only available to full-time/permanent employees. The PARS Plan was closed to new employees on January 1, 2013 as restricted by the Public Employees Pension Reform Act (PEPRA). This Plan is 87 percent funded as of June 30, 2015, based on the assumptions of the GASB 67 and 68 Disclosure Document and the market value of assets.
- The City offers other post-employment benefits (OPEB), a Career Employee Medical Retirement Benefit Plan, to eligible retirees. The plan is constructed to keep costs in check by limiting eligibility and length of benefit. The City provides limited supplemental payment for post-retirement healthcare benefits for full-time/permanent employees who have completed 20 years of service and have reached the age of 55, or who have completed 15 years and reached the age of 60, and who are retiring under CalPERS. The benefit is also limited by the retiree's years of service. This Plan is over 100 percent funded as of June 30, 2015, based on the assumptions of the latest actuarial and the market value of assets.

More detailed information regarding the City's pensions and other post-employment benefits is presented in the notes to the basic financial statements.

FINANCIAL MANAGEMENT POLICIES AND PRACTICES

GASB STATEMENT 68 Accounting and Financial Reporting for Pensions: The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements. The scope of this Statement addresses accounting and financial reporting

for pensions that are provided to the employees of state and local governmental employers through pension plans that are administered through trusts. The requirements of this Statement are effective for financial statements for fiscal years beginning after June 15, 2014, and are included in the these statements.

GASB STATEMENT 71 Pension Transition for Contributions Made Subsequent to the Measurement Date: The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to contributions made by the City's contributions to a defined benefit pension plan after the measurement date of the City's beginning net pension liability. Statement 68 requires the contributing entity to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If the contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the entity's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources. Statement 68 also requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of the contributing entity.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lakewood for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2014. This was the 33rd consecutive year that Lakewood has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Preparation of this report was accomplished by the combined efforts of the Administrative Services Department staff. We appreciate the high level of professionalism and dedication that these staff members bring to the City. The contributions made by Lovenel Reveldez, Assistant Director of Administrative Services; Edianne Rodriguez, Finance Manager; Claire Houck, Senior Accountant; and Michael Aguirre, Accountant deserve special recognition. We also thank the members of the City Council for their interest and support in the development of this report.

Respectfully submitted,

AIR

INDEPENDENT AUDITORS' REPORT

To Honorable City Council of the City of Lakewood Lakewood, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Lakewood, California (the "City") as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Implementation of GASB Statements Nos. 68 and 71

As discussed in Note 1 to the basic financial statements, the City implemented Governmental Accounting Standards Board ("GASB") Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27) and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. The adoption of these standards required retrospective application of previously reported net position and reclassification of certain accounts as of July 1, 2014 as described in Note 17 to the basic financial statements. In addition, net pension liability is reported in the Statement of Net Position in the amount of \$21,860,268 as of the measurement date. Net pension liability is calculated by actuaries using estimates and actuarial techniques from an actuarial valuation as of Jun 30, 2013 which was then rolled-forward by the actuaries to June 30, 2014, the measurement date for California Public Employee Retirement System ("CalPERS") plans and from an actuarial valuation as of June 30, 2013 rolled-forwarded to June 30, 2015, the measurement date for Public Agency Retirement System ("PARS") plan. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Budgetary Comparison Schedule, the Schedule of Changes in Net Pension Liability and Related Ratios, the Schedule of Contributions and the Schedules of Funding Progress on pages 7 to 15 and 89 to 95 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

To Honorable City Council of the City of Lakewood Lakewood, California Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2015, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

The Pur Group, LLP

Santa Ana, California November 30, 2015

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditors' Report

To Honorable City Council of the City of Lakewood Lakewood, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lakewood, California (the "City"), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated November 30, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

200 East Sandpointe Avenue, Suite 600, Santa Ana, California 92707 Tel: 949-777-8800 • Toll Free: 855-276-4272 • Fax: 949-777-8850 www.pungroup.com To Honorable City Council of the City of Lakewood Lakewood, California Page 6

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The Pur Group, UP

Santa Ana, California November 30, 2015

As management of the City of Lakewood, California, (City) we offer readers of the City of Lakewood's financial statements this narrative overview and analysis of the financial activities of the City for fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report, and with the City's financial statements, which follow this discussion.

Financial Highlights

- Net Position: The assets of the City (which include the value of streets, sidewalks and other infrastructure) exceeded liabilities at June 30, 2015, by \$164,306,568. Of this amount, \$32,922,730 may be used to meet the government's ongoing obligations to citizens and creditors, but is subject to designation for specific City programs.
- Changes in Net Position: The government's total net position decreased by \$1,051,051, mainly due to the additional \$3,000,000 contribution to Public Agency Retirement Services (PARS), net of \$1,722,814 actual earnings in excess of projected earnings recognized as reduction of pension expensed for the year ended June 30, 2015.
- Long Term Debt: The City of Lakewood's total debt (noncurrent liabilities) decreased by \$1,126,169, as a result of normal scheduled debt service payments and the refunding of the 2008 Water Revenue Bonds to take advantage of lower interest rate of 2.54 percent.
- Governmental Funds: As of June 30, 2015, the City's governmental funds reported combined ending fund balances of \$60,437,115 an increase of \$1,545,358 in comparison with the prior year. Approximately 68.9 percent of this total amount, \$41,680,731, is available for spending at the government's discretion (committed, assigned, and unassigned fund balance) within the guidelines of the funding sources.
- General Fund: At June 30, 2015, committed, assigned and unassigned fund balance of the general fund was \$42,515,499. All but \$4,737,497 of these funds are committed or assigned for specific purposes in accordance with City policies and budgetary guidelines. The decrease in General Fund's committed fund balance of \$3,463,281 or 10.7 percent from prior year is due to the prefunding of PARS retirement enhancement plan where the City utilized the General Fund committed fund balance established for this purpose to reduce retirement liability.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Lakewood's finances, in a manner similar to a private sector business.

The *statement of net position* presents information on all of the City of Lakewood's assets and liabilities, with the difference between the two reported as *net positions*. Over time, increase or decreases in net position may serve as a useful indicator of whether the financial position of the City of Lakewood is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Lakewood that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Lakewood include general government, public safety, transportation, community development, health and sanitation, and culture and leisure.

The government-wide financial statements include the City of Lakewood and a component unit the Lakewood Public Financing Authority. Financial information for this component unit is reported within the funds of the City. The Water Utility, although also legally separate, functions for all practical purposes as a department of the City of Lakewood, and therefore has been included as an integral part of the government.

The government-wide financial statements can be found on pages 19 - 23 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Lakewood, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Lakewood can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as *balances on spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental fund* and *governmental activities*.

The City of Lakewood maintains nineteen governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances for the general fund, Housing Administration and Program Capital Projects Fund and other governmental funds. Data from the other seventeen governmental funds is combined into a single, aggregated presentation. Individual fund data for each of these other governmental funds is provided in the form of *combining statements* in the supplementary information.

The City of Lakewood adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with this budget in the required supplementary information. Budgetary comparisons for other funds are provided in the supplementary information of this report.

The governmental fund financial statements can be found on pages 27 - 31 of this report.

Proprietary funds. The City of Lakewood maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Lakewood uses enterprise funds to account for its Water Utility operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Lakewood's various functions. The City of Lakewood uses internal service funds to account for its central garage and print shop operations. Because all of these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Utility operations. The Internal Service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

The proprietary fund financial statements can be found on pages 33 - 39 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City of Lakewood's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary fund financial statement can be found on pages 41 - 43 of this report.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 45 - 85 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Lakewood's General Fund budgetary comparison schedule, pension and changes in net pension liabilities and related ratio schedule, pension contribution schedule, and other post-employment funding progress schedules. Required supplementary information can be found on pages 89 - 95 of this report.

The combining statements referred to earlier in connection with other governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 102 - 130 of this report.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Lakewood, assets exceeded liabilities by \$164,306,568 at the close of the most recent fiscal year.

| City of Lakewood Net Position | | | | | | | | | |

By far, the largest portion of the City of Lakewood's net positions, 70.6 percent, reflects its net investment in capital assets (i.e. land, buildings, improvements other than buildings, machinery and equipment, infrastructure, and construction in progress). The City of Lakewood uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Lakewood's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

Additional portion of the City of Lakewood's net position, 9.4 percent, represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$32,932,730 may be used to meet the government's ongoing obligation to citizens and creditors, but is subject to designation for specific City programs per the City's Governmental Fund Balance Policy.

At the end of the current fiscal year, the City of Lakewood is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. At year-end, 82.0 percent of the City of Lakewood's business-type activities' net assets were invested in capital assets.

Additional information on the change in net position can be found on page 17 of this report.

Governmental activities. Overall, governmental activities revenues increased by \$1,313,464 or 2.6 percent and expenditures increased by \$4,009,499 or 8.2 percent from prior year. Key elements of the change are as follows:

 Charges for services increased by \$521,677, this increase is attributable to the increase in Building and Safety revenue, Refuse collection fees, and General government's rent and concession revenue.

- Operating grants decreased by \$187,498 mainly due to reduced Gas Tax funding in the amount of \$504,685 net against increase on sale of Prop A for \$150,000 and \$200,001 from other governments.
- Capital grants provided by the River Park and the State's Open Space grant for the improvement of the West San Gabriel River decreased by \$64,319 and increased by \$84,785 respectively. The City generated \$208,960 from the sale of personalized bricks at the Del Valle Memorial. The said amount is to reimburse the City for the cost and installation of the bricks. The City also recognized \$143,839 from Measure R to fund capital expenditures.
- Property related taxes increased by \$521,351, where \$436,028 is an increase in property tax in lieu of motor vehicle license fee.
- The above increases in revenues were offset by the decrease in operating grants and other contributions by \$633,330, due to the decreases in Gas tax of \$504,685 and Prop A funding park maintenance grant of \$99,721.
- Overall, expenses increased \$4,009,499, an 8.2 percent increase from the prior year. Majority of the increase, in the amount of \$3,000,000 is related to the prefunding of PARS retirement enhancement plan where the City utilized the General Fund committed fund balance established for this purpose to reduce retirement liability. Increases in Culture and leisure of \$703,802 and Transportation of \$209,366 respectively are related to the costs of multi-year capital improvement projects and increased grant funding.

Additional information on activities and change in fund balances can be found on pages 22 - 23 and 30 - 31 of this report.

Business-type activities. The business-type activities reflect the City's water system which includes water operation, water treatment and water production and distribution. This year's State mandated drought conservation efforts resulted in lower consumption which attributed to the decrease in revenue by \$1,380,832. The impact of reduced demand for water resulted in the decline in the total expenses by \$435,101. For the year ended June 30, 2015, the City's business-type activities' change in net position was \$836,686, a decrease of 53.0 percent compared to last year. During the year, the water rate was adjusted to help defray increases in cost of pumping and distributing water and administration of the utility and infrastructure improvements. The increase is necessary for the estimated \$4.1 million in capital improvements required over the next two years, as recommended by the Water Resources Committee. Major projects on the horizon include \$2.1 million for Water Main Replacement project, \$1.7 million for Plant 13 Rehabilitation project, and \$250,000 for ongoing Meter Rotation Program.

Financial Analysis of the Government's Funds

As noted earlier, the City of Lakewood uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Lakewood's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Lakewood's financing requirements. In particular, spendable fund balance may serve as a useful measure of a government's net resources at the end of the fiscal year.

As of the end of the current fiscal year, the City of Lakewood's governmental funds reported combined ending fund balances of \$60,437,115, an increase of \$1,545,358 in comparison with the prior year. Of this amount, \$41,680,731 of the City's governmental funds ending fund balances or 68.9 percent constitute committed, assigned and unassigned fund balance, which is available for spending at the government's discretion within the guidelines of the funding sources. The remainder of fund balance, \$18,756,384, is either nonspendable or restricted for purposes imposed by creditors, grantors, contributors, laws or regulations of other governments or through enabling legislation.

Proprietary funds. The City of Lakewood's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Water Enterprise at the end of the year amounted to \$6,622,300, a decrease of \$1,985,578 from the prior year. These funds will be used to fund water operations and planned capital improvements. Other factors concerning the finance of this fund have already been addressed in the discussion of the City of Lakewood's business-type activities.

General Fund Financial Highlights

The General Fund is the chief operating fund of the City of Lakewood. At the end of the current fiscal year, committed, assigned and unassigned fund balance of the general fund was \$42,515,499, while total fund balance reached \$45,849,601. As a measure of the General Fund's liquidity, it may be useful to compare only the committed, assigned and unassigned fund balance to total fund expenditures. Committed, assigned and unassigned fund balance represents 89.2 percent of the total general fund expenditures, most of which is committed or assigned to meet the City's long-term obligations. The fund balance of the City of Lakewood's general fund decreased by \$1,656,296 during the fiscal year 2014-2015.

Overall, General fund revenues (including transfers in) increased by \$1,134,733 and expenses (including transfers out) increased by \$4,671,627. The main factor in the increase in expenditures is related to the prefunding of PARS retirement enhancement plan where the City utilized the General Fund committed fund balance established for this purpose to reduce retirement liability.

General Fund Budgetary Highlights

For the fiscal year ended June 30, 2015, General Fund's final amended budget increased over the original budget by \$2,349,146 and actual expenditures were \$1,356,727 lower than the final amended budget. These can be briefly summarized as follows:

- General government's total expenditures were higher than budgeted amount by \$1,734,594 due to the additional \$3,000,000 funding of PARS fiscal year ended June 30, 2015.
- Public Safety budgets for contingencies and possible additional services during the fiscal year. This year's actual expenditure was less than the budgeted amount by \$1,121,203 due to the suspension of certain contract items.
- Capital projects for City's streets, parks and facilities totaled \$2,085,761.

Capital Asset and Debt Administration

Capital assets. The City of Lakewood's investment in capital assets for its governmental and business-type activities as of June 30, 2015, amounts to \$119,337,710 (net of accumulated depreciation), an increase of \$1,105,204 or 0.9 percent of total capital assets over prior year. This investment in capital assets includes land, buildings, improvements, machinery and equipment, park facilities, roads, highways, and bridges.

Additional information on the City of Lakewood's long-term debt can be found in Note 9 to the basic financial statements.
Economic Factors and Next Year's Budgets and Rates

The City prudently anticipates and conservatively budgets for general fund revenues to annually increase on average by two percent. This increase includes a slight increase in property tax revenues as a result of the dissolution of redevelopment, a very conservative growth in sales tax, and slow recovery in building permits. Interest earnings are expected to remain far below historical levels, and gas tax and fines are both expected to remain flat through 2020.

The City's general fund operational expenditures are also expected to increase annually by about two percent; in Fiscal Year 2015 general fund expenditures increased by 1.9 percent. This small increase is possible due to the City being a contract-city where only 40 percent of the cost of operations is employee service related. Employee services costs increased by 0.1 percent in Fiscal Year 2015 over that of the prior year, this small increase shows the impact of pension reform. Although we expect employee service costs to increase closer to an average of two to three percent per year through 2020, the overall increase in general fund costs can, and has been, held below two percent by closely monitoring contracts, and limiting expenses on other operational expenses. In Fiscal Year 2015 contract services made up 50 percent of the City's general fund operational costs. The April to April Consumer Price Index (CPI) for the Los Angeles, Riverside, and Orange County region, which is the basis for many of the City's contract increases, was 1.4 percent in 2014 (this is the rate the City utilized as authorized increases in many of its contract service agreements for the 2015 fiscal year) however, the City's largest contract, its contract for law enforcement services, increased by five percent. The cost of contract services reflected this by increasing 3.4 percent in Fiscal Year 2015. The CPI is expected to remain relatively low over the coming years. The City's water, refuse and building and safety fees also include the local CPI as a factor in determining rate increases.

The Great Recession and the State's draconian dissolution of redevelopment agencies greatly impacted the City as evidenced by decreases in revenues from which the City is still recovering. However, the City took purposeful measures to not reduce any services to its residential and business community or implement cost cutting measures such as furloughs. The City weathered the Great Recession and the prolonged sluggish multi-year recovery by adhering to its philosophy to stay focused on what is truly important – the core functions of operating a city – resulting in a healthy community for residents and business. By keeping this focus, the city has built a large capital base that includes the entire inventory of city assets: streets, sidewalks, water system, trees, parks, community facilities and goodwill. The city's goodwill, cultivated through recreation, community services, public safety and economic development programs, creates the neighborly sense of community we all enjoy.

Further detail regarding the impact of national and local economic factors on the City's budget and finances can be read in the Transmittal Letter.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Administrative Services, City of Lakewood, Post Office Box 220, Lakewood, CA 90714-0220.

City of Lakewood Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position June 30, 2015

| Total Fund Balances - Total Governmental Funds | \$ 60,437,115 |
|---|-----------------------------|
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital assets used in governmental activities are not current financial resources and therefore are not reported in governmental funds. Those assets consist of: Amount reported in government-wide statement of position: Nondepreciable assets \$ | 88,446,902 |
| Some of the City's receivables for loans, operating and capital grant reimbursements, taxes and investment income will be collected after year end, but are not available soon enough to pay for current-period expenditures, and therefore, are either not reported or are reported with an offset to unavailable revenues in the funds. | 2,249,062 |
| The net OPEB pension asset is not an available current financial resources and therefore is not reported in the governmental funds: | 3,913,023 |
| Pension contribution made after measurement date is reported as deferred outflow of resources in the government-wide financial statements but reported as pension expense in governmental funds. | 1,590,987 |
| Excess in projected over actual earnings on pension investment is reported as deferred outflows of reources in the government-wide financial statement but not reported in the governmental funds. | 379,470 |
| Excess in actual over projected earning on pension investment is reported as deferred inflows of reources in the government-wide financial statement but not reported in the governmental funds. | (5,818,397) |
| Internal service funds are used by the City to charge the cost of materials and supplies, maintenance and repair of vehicles and equipment and printing services provided to the various departments of the City. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position. Internal Service funds net position, net of net deficit in the amount of \$(618,249) reported in Business-type activities, is: | 685,063 |
| Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and, accordingly are not reported as fund liabilities. All liabilities, both current and long-term are reported in the Statement of Net Position. Balances at June 30, 2015 are: Net pension liabilities Compensabed absences | (19,655,282) (1,333,971) |
| Net position of governmental activities | \$ 130,893,972 |

City of Lakewood Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Government-Wide Statement of Activities For the Year Ended June 30, 2015

| Net change in fund balances - total governmental funds: | \$ 1,545,358 |
|--|------------------------|
| Amounts reported for governmental activities in the Statement of Activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over the estimated useful lives as depreciation expense. This is the amount by which capital expenditures exceeded depreciation in the current period: | |
| Capital outlay expenditures, net of \$21,523 reported in Internal Service Funds\$3,479,959Non-capital expenditures reclassified to functional expense(54,398)Depreciation expense, net of \$8,663 reported in Internal Service Funds(4,002,283) | |
| _ (<u>,,,,,,,,</u>) | (576,722) |
| Governmental funds report long-term rehabilitation and business loans made as expenditures and repayments of those loans as revenues. However, these transactions have no effect in the Statement of Activities. The loan activity for the current period is as follows: | |
| Total amount of loans repaid | (2,262,207) |
| Certain accrued revenues such as taxes, interest, grants, and sanitation service charges, do not provide current financial resources and therefore, are not reported in the governmental funds as revenues. This is the amount of the net change in these accrued revenue amounts during the current period. | (98,075) |
| Governmental funds do not report the changes in net OPEB asset, since it does not provide or require the use of current financial resources. | 60,539 |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds: | |
| Change in compensated absences Pension expense | (288,466) (273,275) |
| Internal service funds are used by management to charge the costs of certain activities, such as fleet repair and maintenance, central stores and printing services to individual funds. The net revenue (expense) of these internal service funds are reported as governmental activities. | 5,111 |
| Change in net position of governmental activities | \$ (1,887,737) |

Note 1 – Reporting Entity

The reporting entity, "City of Lakewood," includes the accounts of the City and the Lakewood Public Financing Authority ("Financing Authority").

The City of Lakewood was incorporated April 16, 1954, under the general laws of the State of California and enjoys all the rights and privileges pertaining to "General Law" cities.

The Lakewood Public Financing Authority was created on December 12, 1995, by a Joint Exercise of Powers Agreement between the City and the former Redevelopment Agency pursuant to the State of California Joint Exercise of Powers Act. The primary purpose of the Financing Authority is assisting in the financing and refinancing of certain public programs and projects of the City or the Agency.

The criteria used in determining the scope of the reporting entity are based on the provisions of Government Accounting Standards Board ("GASB") Statement 14. The City of Lakewood is the primary government unit. Component units are those entities which are financially accountable to the primary government, either because the City appoints a voting majority of the component unit's board or because the component unit will provide a financial benefit or impose a financial burden on the City. The City has accounted for the Financing Authority as a "blended " component unit. Despite being legally separate, this entity is so intertwined with the City that it is, in substance, part of the City's operations. Accordingly, the balances and transactions of this component unit are reported within the funds of the City. The Financing Authority balances and transactions are reported as part of the Water Enterprise Fund. The following specific criteria were used in determining that the Financing Authority was a blended component unit:

- The members of the City Council also act as the governing body of the Financing Authority.
- The Financing Authority is managed by employees of the City. No allocation of the City's salary and overhead expenses are made to the Financing Authority.
- The City and the Financing Authority are financially interdependent. The Financing Authority arranges financing issues for the City. The City pays the debt service on the Financing Authority's financing issues.
- No individual financial statements are prepared for the Financing Authority.

Note 2 – Summary of Significant Accounting Policies

A. Basis of Presentation

Financial statement presentation follows the recommendations promulgated by the Governmental Accounting Standards Board ("GASB") commonly referred to as accounting principles generally accepted in the United States of America ("U.S. GAAP"). GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting standards.

B. Measurement Focus, Basis of Accounting and Financial Statements Presentation

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained in accordance with legal and managerial requirements.

In accordance with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, the Statement of Net Position reports separate sections for Deferred Outflows of Resources, and Deferred Inflows of Resources, when applicable.*

<u>Deferred Outflows of Resources</u> represent outflows of resources (consumption of net position) that apply to future periods and that, therefore, will not be recognized as an expense until that time.

<u>Deferred Inflows of Resources</u> represent inflows of resources (acquisition of net position) that apply to future periods and that, therefore, are not recognized as a revenue until that time.

Government-Wide Financial Statements

The City's Government-Wide Financial Statements include a Statement of Net Position and a Statement of Activities and Changes in Net Position. These statements present summaries of governmental and business-type activities for the City accompanied by a total column. Fiduciary activities of the City are not included in these statements.

These financial statements are presented on an "*economic resources*" measurement focus and the accrual basis of accounting. Accordingly, all of the City's assets and liabilities, including capital assets, as well as infrastructure assets, and long-term liabilities, are included in the accompanying Statement of Net Position. The Statement of Activities presents changes in Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Certain types of transactions are reported as program revenues for the City in three categories:

- Charges for services
- > Operating grants and contributions
- > Capital grants and contributions

Certain eliminations have been made in regards to interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between the governmental activities and the business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the Statement of Activities and Changes in Net Position, internal service fund transactions have been eliminated; however, those transactions between governmental and business-type activities have not been eliminated. The following interfund activities have been eliminated:

- > Due to/from other funds
- Advances to/from other funds
- > Transfers in/out

B. Measurement Focus, Basis of Accounting and Financial Statements Presentation (Continued)

Government Fund Financial Statements

Governmental Fund Financial Statements include a Balance Sheet and a Statement of Revenues, Expenditures and Changes in Fund Balances for all major governmental funds and non-major funds aggregated. An accompanying schedule is presented to reconcile and explain the differences in Net Position as presented in these statements to the Net Position presented in the Government-Wide Financial Statements. The City has presented all major funds that met the applicable criteria.

All governmental funds are accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances presents increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period.

Revenues are recognized as soon as they are both "measurable" and "available". Revenues are considered to be available when they are collectible within the current period as soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The primary revenue sources, which have been treated as susceptible to accrual by the City, are property taxes, sales tax, intergovernmental revenues and other taxes. Expenditures are recorded in the accounting period in which the related fund liability is incurred.

The Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements is provided to explain the differences created by the integrated approach of GASB Statement No. 34.

The City reports the following major Governmental Funds:

The **General Fund** is used to account for all revenues and activities financed by the City, except those required to be accounted for in another fund.

The **Housing Admin & Program Capital Projects Fund** is used to account for the low and moderate income housing activities that were transferred to the City upon dissolution of the former Redevelopment Agency.

Proprietary Fund Financial Statements

Proprietary Fund Financial Statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows for each major Proprietary Fund.

A separate column representing internal service funds is also presented in these statements. However, internal service balances and activities have been combined with the governmental activities in the Government-Wide Financial Statements. The City's internal service funds include two individual funds which provide services directly to other City funds. These areas of service include Central Garage and Print Shop.

B. Measurement Focus, Basis of Accounting and Financial Statements Presentation (Continued)

Proprietary Fund Financial Statements (Continued)

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Fund Net Position presents increases (revenues) and decreases (expenses) in total Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which they are earned while expenses are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. In these funds, receivables have been recorded as revenue and provisions have been made for uncollectible amounts.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as non-operating expenses.

The City reports the following major proprietary funds:

The **Water Enterprise Fund** is used to account for the construction, operation, and maintenance of the City water system.

Fiduciary Fund Financial Statements

Fiduciary fund financial statements include a Statement of Net Position and a Statement of Changes in Fiduciary Net Position. The City's fiduciary funds represent agency funds and private purpose trust funds. Both agency funds and the private purpose trust funds are accounted for on the full accrual basis of accounting.

The City reports the following fiduciary funds:

The **Private Purpose Trust Fund** is used to account for the activities of the Successor Agency to the Lakewood Redevelopment Agency.

The **Agency Funds** account for assets held by the City as trustee or agent for individuals, private organizations or other governmental units. The City accounts for special deposits resulting from new development, joint governmental projects, housing rehabilitation loans funded by Department of Housing and Urban Development grants and small business revolving loans funded by the Economic Development Administration grants.

C. Cash, Cash Equivalents, and Investments

The City pools its available cash for investment purposes. The City considers pooled cash and investment amounts, with original maturities of three months or less, to be cash equivalents.

Highly liquid market investments with maturities of one year or less at time of purchase are stated at amortized cost. All other investments are stated at fair value. Market value is used as fair value for those securities for which market quotations are readily available. The City reported its investments at fair value and the unrealized gain on investments amounted to \$146,212 for the fiscal year ended June 30, 2015.

C. Cash, Cash Equivalents, and Investments (Continued)

The statement of cash flows requires presentation of "cash and cash equivalents". For the purposes of the statement of cash flows, the City considers all proprietary fund pooled cash and investments as "cash and cash equivalents", as such funds are available to the various funds as needed.

Certain disclosure requirements, if applicable, for Deposits and Investment Risks in the following areas:

- Interest Rate Risk
- Credit Risk
 - Overall
 - Custodial Credit Risk
 - Concentration of Credit Risk
- Foreign Currency Risk

In addition, other disclosures are specified including use of certain methods to present deposits and investments, highly sensitive investments, credit quality at year-end and other disclosures.

D. Restricted Cash and Investments with Fiscal Agents

Cash and investments with fiscal agents are restricted due to limitations on their use by bond covenants or donor limitations. Fiscal agents acting on behalf of the City hold investment funds arising from the proceeds of long-term debt issuances. The funds may be used for specific capital outlays or for the payment of certain bonds, and have been invested only as permitted by specific State statutes or applicable City ordinance, resolution or bond indenture.

E. Receivables

Receivables include such items as taxes, intergovernmental revenues, charges for services, miscellaneous accounts receivable, and interest receivable. No allowance for doubtful accounts has been established, as the City believes all amounts are considered to be collectible in the normal course of business.

F. Inventories

Inventories consist primarily of recreation equipment, maintenance and repair supplies, fuel, and office supplies for the governmental activities. Inventories consist primarily of water pipe, valves, and fittings for the Water Enterprise Fund. Inventories are valued at cost on a weighted average basis.

G. Prepaid Items

Prepaid items are payments made to vendors for services that will benefit periods beyond the fiscal year ended using purchase method.

H. Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" or "advances to/from other funds" (i.e., the current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the Governmental-Wide Financial Statements as "internal balances".

I. Land Held For Resale

Land held for resale is recorded at the lower of acquisition cost or net realizable value in the Housing Admin & Program Capital Projects Fund.

J. Capital Assets

Capital assets, which include land, site improvements, buildings and improvements, equipment and infrastructure assets are reported in the applicable governmental or business-type activities in the accompanying government-wide statement of net position. The City defines infrastructure as the basic physical assets that allow the City to function. The assets include roads, bridges, streetlights, traffic signals and sewer lines. Each major infrastructure system can be divided into subsystems. For example, the street system can be subdivided into pavement, curbs and gutters, sidewalks, medians, streetlights, landscaping and land. These subsystems were not delineated in the basic financial statements. The appropriate operating department maintains information regarding the subsystems.

Capital assets are valued at historical cost or estimated historical cost if actual historical cost was not available. Donated capital assets are valued at their estimated fair market value on the date donated. City policy has set the capitalization threshold for reporting capital assets at \$5,000 for non-infrastructure assets and \$25,000 for infrastructure assets. Depreciation is recorded on a straight-line basis over estimated useful lives of the assets as follows:

| Buildings | 50 years |
|-----------------------------|----------|
| Building Improvement | 30 years |
| Water and Sewer Lines | 50 years |
| Roads | 30 years |
| Vehicles | 7 years |
| Office Equipment | 7 years |
| Computer Equipment/Software | 5 years |
| Other Equipment | 7 years |

For all infrastructure systems, the City elected to use the Basic Approach for infrastructure reporting.

Interest accrued during capital assets construction, if any, is capitalized for the business-type funds as part of the asset cost.
K. Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick leave (compensated absences). All vacation pay and eligible sick leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. Compensated absences are reported in governmental funds only if they matured (i.e., unused reimbursable leave still outstanding following an employee's termination from employment). Typically, the General Fund has been used in prior years to liquidate the liability for compensated absences.

Unpaid compensated absences of proprietary funds are recorded as a liability in those funds as the vested benefits to the employees accrue.

L. Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans (Note 11). For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

| CalPERS | |
|--------------------|-------------------------------|
| Valuation Date | June 30, 2013 |
| Measurement Date | June 30, 2014 |
| Measurement Period | July 1, 2013 to June 30, 2014 |
| | |
| PARS | |
| Valuation Date | June 30, 2013 |
| Measurement Date | June 30, 2015 |
| Measurement Period | July 1, 2014 to June 30, 2015 |
| | |

M. Long-Term Debt

Government-Wide Financial Statements

Long-term debt and other financial obligations are reported as liabilities in the appropriate funds.

Bond premiums and discounts, as well as gains and losses on refunding, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable premium or discount. Issuance costs are expensed in the year of issuance.

Fund Financial Statements

The fund financial statements do not present long-term debt but are shown in the Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position.

N. Claims and Judgment

When it is probable that a claim liability has been incurred at year-end and the amount of the loss can be reasonably estimated, the City records the estimated loss, net of any insurance coverage under its self-insurance program. Small dollar claims and judgments are recorded as expenditures when paid.

The City's self-insurance program is administered through California Joint Powers Insurance Authority (the "Authority"), which is described in Note 14 to the financial statements. The Authority is a public entity risk pool. Claims losses recorded in the Authority include both current claims and incurred but not reported claims (IBNR). Deposits to the Authority are recorded by the City as insurance expenditures in the General Fund when paid. These deposits are subject to retrospective adjustment. Favorable claims experience in prior years results in a refund of deposits from the Authority and such refunds, if any, are recorded as prepaid items in the General Fund since they will be used to offset future deposit requirements. Included in prepaid items as of June 30, 2015 are refunds totaling \$250,982 related to the workers' compensation coverage program. Adverse claims experience in prior years results in the payment of additional deposits and such deposits, if any, are recorded as insurance expenditures when incurred. In addition, there is a prepaid balance in the General Fund totaling \$494,788 related to the general liability program.

O. Net Position

In governmental-wide and proprietary fund financial statements, Net Position are categorized as follows:

<u>Net Investment in Capital Assets</u> – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of those assets.

<u>Restricted</u> – This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets.

<u>Unrestricted</u> – This component of net position is the amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

When expenses are incurred for purposes for which both restricted and unrestricted Net Position are available, the City's policy is to apply restricted Net Position first, then unrestricted Net Position as they are needed.

P. Fund Balances

In governmental fund financial statements, fund balances are categorized as follows:

 $\underline{Nonspendable}$ – Items that cannot be spent because they are not in spendable form, such as prepaid items and inventories, items that are legally or contractually required to be maintained intact, such as principal of an endowment or revolving loan funds.

<u>Restricted</u> – Restricted fund balances encompass the portion of net fund resources subject to externally enforceable legal restrictions. This includes externally imposed restrictions by creditors, such as through debt covenants, grantors, contributors, laws or regulations of other governments, as well as restrictions imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> – Committed fund balances encompass the portion of net fund resources, the use of which is constrained by limitations that the government imposes upon itself at its highest level of decision making, normally the governing body, and that remain binding unless removed in the same manner. The City Council is considered the highest authority for the City. Adoption of a resolution by the City Council is required to commit resources or to rescind the commitment.

<u>Assigned</u> – Assigned fund balances encompass the portion of net fund resources reflecting the government's intended use of resources. Assignment of resources can be done by the highest level of decision making or by a committee or official designated for that purpose. The City Council has by resolution authorized the City Manager to assign fund balance. The City Council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriation in the subsequent year's appropriated budget.

<u>Unassigned</u> – This amount is for any portion of the fund balances that do not fall into one of the above categories. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. However, in governmental fund other than general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the City's policy is to apply restricted fund balance first. Further, when the components of unrestricted fund balance can be used for the same purpose, the City uses the unrestricted resources in the following order: committed, assigned, and unassigned.

Q. Property Taxes

Property taxes are levied on March 1 and are payable in two installments: November 1 and February 1 of each year. Property taxes become delinquent on December 10 and April 10, for the first and second installments, respectively. The lien date is January 1. The County of Los Angeles, California (County) bills and collects property taxes and remits them to the City according to a payment schedule established by the County.

The County is permitted by State law to levy taxes at 1% of full market value (at time of purchase) and can increase the property tax rate no more than 2% per year or the current CPI, whichever is less. The City receives a share of this basic tax levy proportionate to what it received during the years 1980-1981.

Property tax revenue is recognized in the fiscal year for which the taxes have been levied, provided the taxes are received within 60 days after the end of the fiscal year. Property taxes received after this date are not considered available as a resource that can be used to finance the current year operations of the City and, therefore, are not recorded as revenue until collected.

No allowance for doubtful accounts was considered necessary.

R. Use of Estimates

The preparation of basic financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from these estimates and assumptions.

Note 3 – Cash and Investments

At June 30, 2015, cash and cash investments are classified in the accompanying financial statements as follows:

| | Government- Wide Statement of Net Position | | Fiduciary Fund Statement of Net Position | | Total |
|---|--|------------|--|-----------|------------------|
| Unrestricted assets: | | | | | |
| Cash and investments | \$ | 56,975,152 | \$ | 3,993,672 | \$ 60,968,824 |
| Cash and investments with fiscal agents | | - | | 1,456,697 | 1,456,697 |
| Restricted assets: | | | | | |
| Cash and investments | | 26,115 | | - | 26,115 |
| Total cash and investments | \$ | 57,001,267 | \$ | 5,450,369 | \$ 62,451,636 |

At June 30, 2015, cash and investments consisted of the following:

| Deposits with financial institution | \$ 5,410,785 |
|-------------------------------------|------------------|
| Petty cash | 2,700 |
| Investments | 57,038,151 |
| Total cash and investments | \$ 62,451,636 |

A. Demand Deposits

The carrying amount of the City's cash deposits were \$5,410,785 at June 30, 2015. Bank balances before reconciling items were \$5,181,762 at that date, the total amount of which was insured or collateralized with securities held by the pledging financial institutions in the City's name as discussed below.

The California Government Code requires California banks and savings and loan associations to secure the City's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the City's name.

The market value of pledged securities must equal at least 110% of the City's cash deposits. California law also allows institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the City's total cash deposits. The City may waive collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation. The City, however, has not waived the collateralization requirements.

B. Investments Authorized by the California Government Code and the City's Investment Policy

The table below identifies the investment types that are authorized for the City by the California Government Code (or the City's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the City's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the City, rather than the general provisions of the California Government Code or the City's investment policy.

| Authorized Investment Type | M aximum M aturity | M axiumum Percentage Allowed | M aximum Investments in One Issuer |
|--|-----------------------|------------------------------------|--|
| United States Treasury Bills, Bonds and Notes | 5 Years | None | None |
| United States Government Sponsored Agency Securities | 5 Years | None | None |
| Municipal Obligations | 5 Years | None | None |
| Negotiable Certificates of Deposit | 5 Years | 30% | 10% |
| Time Certificates of Deposit | 1 Year | None | None |
| Corporate Notes | 5 Years | 30% | 10% |
| Local Agency Investment Fund (LAIF) | N/A | None | None |
| Money Market Funds | N/A | 20% | 10% |
| Government Pools | N/A | None | None |
| Los Angeles County Pooled Fund | N/A | None | None |

N/A - Not Applicable

C. Investments Authorized by Debt Agreement

Investments of debt proceeds held by bond trustee are governed by provisions of the debt agreements, rather than the general provisions of the California Government Code or the City's investment policy. Investments authorized for funds held by bond trustee include, United States Treasury Obligations, United States Government Sponsored Agency Securities, Certificates of Deposits, Commercial Paper, Local Agency Bonds, Banker's Acceptance, Money Market Mutual Funds, Investment Agreements, Repurchase Agreements, Local Agency Investment Fund of the State of California and any other investments permitted in writing by bond insurer. There were no limitations on the maximum amount that can be invested in one issuer, maximum percentage allowed or the maximum maturity of an investment.

D. Risk Disclosures

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the City manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the City's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the following table that shows the distribution of the City's investments by maturity:

| | Remaining Maturity (In Months) | | | | | | | | |
|------------------------------------|--------------------------------|--------------|--------------|---------------|--|--|--|--|--|
| | 12 Months | 13-24 | 25-60 | | | | | | |
| Investment Type | or Less | Months | Months | Total | | | | | |
| Local Agency Investment Fund | \$18,595,691 | \$ - | \$ - | \$18,595,691 | | | | | |
| United States Treasury Notes | 385,781 | 8,198,817 | 7,120,674 | 15,705,272 | | | | | |
| United States Government Sponsored | | | | | | | | | |
| Agency Securities | - | 2,447,564 | 1,525,531 | 3,973,095 | | | | | |
| Municipal Bonds | 450,579 | - | - | 450,579 | | | | | |
| CAMP Cash Reserve Portfolio | 43,098 | - | - | 43,098 | | | | | |
| Money Market Mutual Funds | 795,720 | - | - | 795,720 | | | | | |
| Negotiable Certificates of Deposit | 1,450,324 | 3,619,413 | 724,595 | 5,794,332 | | | | | |
| Corporate Medium Notes | 2,023,582 | 3,792,110 | 4,407,975 | 10,223,667 | | | | | |
| Held by Bond Trustee: | | | | | | | | | |
| Money Market Mutual Funds | 1,456,697 | | _ | 1,456,697 | | | | | |
| Total | \$25,201,472 | \$18,057,904 | \$13,778,775 | \$ 57,038,151 | | | | | |

D. Risk Disclosures (Continued)

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the City's investment policy, or debt agreements, and the actual rating, by Standard and Poor's, as of June 30, 2015 for each investment type:

| Investment Type | Total as of June 30, 2015 | Minimum Legal Rating | AAA | Other | Not Rated | Not Required to be Rated |
|------------------------------------|---------------------------------|----------------------------|--------------|---------------|---------------|--------------------------------|
| Local Agency Investment Fund | \$18,595,691 | N/A | \$ - | \$ - | \$ 18,595,691 | \$ - |
| United States Treasury Notes | 15,705,272 | N/A | - | - | - | 15,705,272 |
| United States Government Sponsored | | | | | | |
| Agency Securities | 3,973,095 | N/A | - | 3,973,095 | - | - |
| Municipal Bonds | 450,579 | А | 275,297 | 175,282 | - | - |
| CAMP Cash Reserve Portfolio | 43,098 | А | 43,098 | - | - | - |
| Money Market Mutual Funds | 795,720 | А | 795,720 | - | - | - |
| Negotiable Certificates of Deposit | 5,794,332 | N/A | - | 5,794,332 | - | - |
| Corporate Medium Notes | 10,223,667 | А | 749,391 | 9,474,276 | - | - |
| Held by Bond Trustee: | | | | | | |
| Money Market Mutual Funds | 1,456,697 | А | 1,456,697 | | | |
| Total | \$57,038,151 | | \$ 3,320,203 | \$ 19,416,985 | \$18,595,691 | \$15,705,272 |

The actual ratings for the "Other" category above are as follows:

| Investment Type | AA+ | AA | | AA- | | A+ | | А | | A- | Total |
|-------------------------------------|--------------|---------------|--------|---------|------|----------|--------|--------|----|---------|--------------|
| United States Government | | | | | | | | | | | |
| Sponsored Agency Securities | \$ 3,973,095 | \$ - | \$ | - | \$ | - | \$ | - | \$ | - | \$ 3,973,095 |
| Municipal Bonds | - | 175,282 | | - | | - | | - | | - | 175,282 |
| Negotiable Certificates of Deposits | - | - | 2,8 | 397,946 | 1 | ,275,229 | 1,6 | 21,157 | | - | 5,794,332 |
| Corporate Medium Notes | 902,693 | 491,029 | 1,9 | 906,757 | 2 | ,473,669 | 3,1 | 43,184 | | 556,944 | 9,474,276 |
| Total | \$ 4,875,788 | \$ 666,311 | \$ 4,8 | 304,703 | \$ 3 | ,748,898 | \$ 4,7 | 64,341 | \$ | 556,944 | \$19,416,985 |

Disclosures Relating to Concentration of Credit Risk

The investment policy of the City contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There were no investments in any one issuer that represent 5% or more at June 30, 2015.

Disclosures Relating to Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of the counter party, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All securities, with the exception of LAIF and other pooled investments, are held by a third-party custodian.

E. Investment in Local Agency Investment Fund (LAIF)

The City is a participant in LAIF which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The City's investments in LAIF at June 30, 2015 included a portion of pool funds invested in Structure Notes and Asset-Backed Securities:

<u>Structured Notes</u> are debt securities (other than asset-backed securities) whose cash-flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

<u>Asset-Backed Securities</u>, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

As of June 30, 2015, the City had \$18,595,691 invested in LAIF, which had invested 2.08% of the pool investment funds in Structured Notes and Asset-Back Securities. LAIF determines fair value on its investment portfolio based on market quotations for those securities where market quotations are readily available and based on amortized cost or best estimate for those securities where market value is not readily available. The City valued its investments in LAIF by multiplying its account balance with LAIF times a fair value factor determined by LAIF. This fair value factor was determined by dividing all LAIF participants' total aggregate amortized cost by total aggregate fair value. The credit quality rating of LAIF is unrated as of June 30, 2015.

F. Investment in California Asset Management Program

The City is a voluntary participant in the California Asset Management Program ("CAMP"), a California joint powers authority established in 1989 by the treasurers and finance directors of several California local agencies. CAMP offers its shareholders a California Asset Management Trust ("Trust") Cash Reserve Portfolio, a short-term money market portfolio. The Trust's activities are directed by a board of trustees, all of whom are employees of California public agencies which are participants in the Trust. The Trust's investments are limited to investments permitted by subdivisions (a) to (o), inclusive, of Section 53601 of the California Government Code. The City's investment in the CAMP Cash Reserve Portfolio is reported at amounts based upon the City's pro-rata share of the Portfolio's amortized cost (which approximates fair value) as provided by CAMP. The balance available for withdrawal is based on the accounting records maintained by CAMP, which are recorded on an amortized cost basis.

Note 4 – Notes Receivable

At June 30, 2015, notes receivable consisted of the followings:

| | Gov | ernment-Wide | Fiduciary Fund Financial Statements | | | | |
|---|-----|--------------|-------------------------------------|---------|----|---------|-----------------|
| | | Financial | Private | | | | |
| | 5 | Statements | | Purpose | | | |
| | Go | overnmental | | Trust | | Agency | |
| | | Activities | | Fund | | Funds | Total |
| Home Improvement Loan Program | | 2,073,280 | \$ | - | \$ | 840,909 | \$ 2,914,189 |
| HJCH II, Inc. Lakewood Redevelopment Agency | | - | | 482,479 | | - | 482,479 |
| Revolving Loan Fund Program | | - | | - | | 85,079 | 85,079 |
| Total notes receivable | \$ | 2,073,280 | \$ | 482,479 | \$ | 925,988 | \$ 3,481,747 |

Note 4 – Notes Receivable (Continued)

A. Governmental Activities

The former Redevelopment Agency made deferred loans to senior citizens, the physically handicapped, and lowand moderate-income residents which are not repaid until the title to the property changes. In Fiscal year 1996-97, the former Redevelopment Agency began to use Redevelopment Agency low and moderate housing 20% set-aside funds to provide housing rehabilitation loans to eligible applicants. The rehabilitation loans were made from the former Redevelopment Agency's low and moderate housing 20% set-aside funds. The loans were transferred to the Housing Admin & Program Capital Projects Fund on February 1, 2012, the effective date of the former Redevelopment Agency dissolution, since the City had accepted the role of being the Successor Housing Agency. Due to the long-term nature of the loans, the City has deferred recognition of revenues until receipt in the governmental fund financial statements. The balance of these loans totaled \$2,073,280 at June 30, 2015.

B. Private Purpose Trust Fund

As consideration for the sale of land on November 3, 2006, the former Redevelopment Agency took a \$689,520 note from the buyer. The term of the note is ten years. Interest accrues on the note at a rate of 5.5% per annum. Principal and interest is payable quarterly. The quarterly payments are fixed at \$14,298 with a balloon payment of \$434,883 due on November 1, 2016. The note balance at June 30, 2015 is \$482,479.

C. Agency Funds

The City makes deferred loans to senior citizens, the physically handicapped, and low- and moderate-income residents which are not repaid until the title to the property changes. In fiscal year 1996-97, the City began to use Redevelopment Agency low and moderate housing 20% set-aside funds to provide housing rehabilitation loans to eligible applicants. Through fiscal year 1997-98 and 2012-13, the City also used Housing and Community Development Block Grant (CDBG) funds to provide these loans. The rehabilitation loans made from the former Redevelopment Agency's low and moderate housing 20% set-aside funds are reported in the Housing Admin & Program Capital Projects Fund. Due to the long-term nature of the loans, the City has deferred recognition of revenues until receipt. The rehabilitation loans made from CDBG funds and all HUD cash held for rehabilitation loans are reflected in the Housing Rehabilitation Agency Fund. Since the Department of Housing and Urban Development has a claim to any funds remaining when the program is terminated, these funds are reported as "Due to HUD" in the Agency Fund.

The Gateway Cities Council of Governments has received loan funds for economic development from the Economic Development Administration (EDA). On August 24, 1999, the City of Lakewood approved an agreement with the Gateway Cities Council of Governments, of which the City of Lakewood is a member, to receive \$666,725 of these funds as a sub-grantee. These funds were used to establish a commercial revolving loan fund to provide for business expansion, economic development, and job creation in Lakewood. The revolving loan fund particularly targets industrial, manufacturing, and commercial businesses adjacent to the Boeing plant and Long Beach Airport and at the 19-acre former Rockwell site in Lakewood. This is a matching loan program. The funds received from the EDA have been matched with \$85,000 from a California Trade and Commerce Agency Defense Adjustment Matching Grant and \$168,245 in Community Development Block Grant (CDBG) funds. The revolving loans and all EDA cash held for revolving loans are reflected in the Lakewood Business Development Loans Agency Fund. Since the Economic Development Administration (EDA) has a claim to any funds remaining when the program is terminated, these funds are reported as "Due to EDA" in the Agency Fund.

Note 5 – Interfund Transactions

A. Due From And To Other Funds

At June 30, 2015, the City has the following due from and to other funds:

| | Gov | ernmental Funds | Proprietary Funds | |
|-------------------------------------|--------|--------------------|-----------------------|---------------|
| | Ν | Vonmajor | | |
| Due From Other Funds | Govern | nmental Funds | Internal Service Fund | Total |
| Governmental Funds: General Fund | \$ | 864,920 | 1,597 | \$ 866,517 |

These interfund balances represent routine short-term cash flow assistance.

B. Transfers In And Out

At June 30, 2015, the City had the following transfers in/out:

| | | Governme | | | |
|-----------------------------|-----------|-------------|-------------------------------|--------|-----------------|
| | | | | | |
| Transfers Out | G | eneral Fund | neral Fund Governmental Funds | | Total |
| Governmental Funds: | | | | | |
| General Fund | \$ | - | \$ | 10,645 | \$ 10,645 |
| Nonmajor Governmental Funds | 2,096,570 | | | - | 2,096,570 |
| | \$ | 2,096,570 | \$ | 10,645 | \$ 2,107,215 |

Transfers provided funding for capital projects, capital acquisitions, and debt service.

Note 6 – Land Held For Resale

At June 30, 2015, land held for resale consisted of the followings:

| Location/Address | _ | Amount | Use of Property |
|-------------------------|----|-----------|--|
| 20529 Pioneer Boulevard | \$ | 129,557 | Vacant. Future affordable housing development site |
| 20525 Pioneer Boulevard | | 375,445 | Vacant. Future affordable housing development site |
| 11643 207th St | | 413,650 | Affordable Housing |
| 11647 207th St | | 413,650 | Affordable Housing |
| 11644 206th St | | 526,000 | Affordable Housing |
| 20920 Roseton Ave | | 257,000 | Affordable Housing |
| 11649 207th St | | 320,000 | Affordable Housing |
| 11610 207th St | | 262,500 | Vacant Land |
| 11618 207th St | | 262,500 | Vacant Land |
| Total | \$ | 2,960,302 | |

Note 7 – Receivable From Successor Agency

On June 30, 2012, the amount due by the Lakewood Successor Agency to the City was \$30,950,525. Under AB 1X26, the Successor Agency was only able to list as enforceable obligation the amount of the *initial* City Loan for the plan area, which was \$382,000. Subsequent legislation, AB1484, allowed interest for the City loans to be recalculated at the LAIF rate over the life of the loan. The outstanding interest on the City loan using the LAIF interest rate calculation is \$2,612,099, of which, 80% are allocated to General Fund and 20% are allocated to the City's Housing Admin & Program Capital Projects Fund. Due to the Due Diligence Review called for under AB 1X26, the City reduced the amount receivable to the amount allowable, which resulted in the Successor Agency recognizing an extraordinary gain of \$27,956,419 on the statement of changes in fiduciary net position. During fiscal year 2013-14, the Successor Agency made a principal payment of \$38,200 to the City. At June 30, 2015, the total principal and interest due to the City General Fund and Housing Admin & Program Capital Projects Fund.

On April 14, 2005, the Agency Board approved a 10-year interfund loan from the Capital Projects Fund to the Debt Service Fund to provide partial funding for the required payment to the County of Los Angeles' Educational Revenue Augmentation Fund for the year ended June 30, 2005. No interest accrues on this loan and annual installments of \$22,623 commenced May 10, 2006. The loan balance at June 30, 2015 was \$90,491. The loan was transferred to the Successor Agency and the asset side was transferred to the Housing Admin & Program Capital Projects Fund as of the date of the dissolution of the Agency in accordance with Assembly Bill 1X26.

On February 9, 2011, the Agency Board approved a 5-year loan from the Capital Projects Fund to the Debt Service Fund to provide funding for the required payment to the County of Los Angeles' Supplemental Educational Revenue Augmentation Fund. On January 25, 2012, the Agency Board approved a second 5-year loan from the Capital Projects Fund to the Debt Service Fund for similar purposes. No interest accrues on these loans and the loans must be repaid on or before June 30, 2015 and 2016, respectively. The total loan balance at June 30, 2015 was \$3,878,059. The liability side of this loan was transferred to the Successor Agency and the asset side was transferred to the Housing Admin & Program Capital Projects Fund as of the date of the dissolution of the Agency in accordance with Assembly Bill 1X26.

California Health and Safety Code Section 33334.6 requires that Redevelopment Agencies set aside 20% of the annual tax increment proceeds for the benefit of low- and moderate-income housing. However, an Agency may defer the setaside of 20% if it determines that the tax increment required to be deposited is necessary for the orderly and timely completion of programs approved by the Agency prior to January 1, 1986. The Agency made such a determination to defer the deposit of \$1,383,310 of tax increment into the Housing Set-Aside Fund. The Agency has adopted a plan for repayment of this Housing Set-Aside Fund deficit. The Agency did not make a payment towards this deficit during the year ended June 30, 2015, as this deficit was not considered an enforceable obligation under Assembly Bill 1X26, the deficit total remains at \$1,085,310; however, under subsequent legislation, AB1484, this deficit is now considered an enforceable obligation and payments from the Successor Agency are allowed to commence in fiscal year 2013-14 to the City's Housing Admin & Program Capital Projects Fund.

During the year ended June 30, 2015, the City loaned the Successor Agency \$11,509 to make its required obligation payments. The Department of Finance (DOF) has approved the expenditures and the City will receive payments from the County Auditor during fiscal year 2015-16.

Note 8 – Capital Assets

A. Governmental Activities

Summary of changes in capital assets of the governmental activities for the year ended June 30, 2015 is as follows:

| | Balance July 1, 2014 | Additions | Deletions | Reclassification | Balance June 30, 2015 |
|--|-------------------------|--------------|-----------|------------------|--------------------------|
| Capital assets, not being depreciated: | | | | | |

2004 Water Revenue Bonds

On April 15, 2004 the City issued \$4,635,000 Water Refunding Bonds to refinance the outstanding 1996 Water-Bond. The 2004 Bonds are secured by a charge and lien on net revenue of the water enterprise.

The 2004 Bonds are revenue bonds maturing annually each April 1 through the calendar year 2016, and bearing interest at rates ranging from 3% to 4%. Interest is payable semiannually on April 1 and October 1.

The annual requirements to amortize the bonds outstanding at June 30, 2015, are as follows:

| Year Ending | | | | | | | |
|-------------|----|----------|----|---------|-------|---------|--|
| June 30 | P | rincipal | Ir | nterest | Total | | |
| 2016 | \$ | 460,000 | \$ | 16,100 | \$ | 476,100 | |

B. Business-type Activities (Continued)

2008 Water Revenue Bonds

On May 7, 2008, the City issued \$3,450,000 in non-taxable water revenues bonds to finance the construction of a photovoltaic system. The 2008 Bonds are secured by a charge and lien on the net revenue of the water enterprise.

Principal payments on the capital lease are due annually each April 1, commencing April 1, 2011. The bonds were sold through a negotiated sale and bears interest at a rate of 4.75%. Interest payments are payable semi-annually on April 1 and October 1.

The 2008 Water Revenue Bonds were current refunded by 2015 Water Refunding Revenue Bonds during the year ended June 30, 2015. The economic gain on the current refunding was \$194,632.

2015 Photovolatic System Lease and Sublease Agreements

On May 25, 2015, the City entered into the \$1,990,000 Photovolatic System Lease and Sublease Agreements with CLP Holdings Inc. to refund the 2008 Water Revenue Bonds.

Principal payments on the capital lease are due annually each April 1, commencing April 1, 2011. The bonds were sold through a negotiated sale and bears interest at a rate of 2.54%. Interest payments are payable semi-annually on April 1 and October 1.

| Year Ending June 30 | | Principal | ī | Interest | Total |
|------------------------|----|-----------|----|----------|-----------------|
| June 30 | • | meipai | | interest | 10141 |
| 2016 | \$ | 227,468 | \$ | 50,546 | \$ 278,014 |
| 2017 | | 233,245 | | 44,768 | 278,013 |
| 2018 | | 239,170 | | 38,844 | 278,014 |
| 2019 | | 245,244 | | 32,769 | 278,013 |
| 2020 | | 251,474 | | 26,540 | 278,014 |
| 2021-2023 | | 793,399 | | 40,642 | 834,041 |
| Total | \$ | 1,990,000 | \$ | 234,109 | \$ 2,224,109 |

The future annual required lease payments at June 30, 2015, are as follows:

Loans Payable

In November 2008, the City entered into a loan agreement with the Water Replenishment District of Southern California (WRD). Pursuant to the agreement, WRD is to loan the City up to \$2,200,000 which is to be used towards the design, construction and installation of wellhead treatment systems at the City's Well 27 site. Since June 30, 2011, the City had requested and received \$1,974,801 from WRD. The loan is unsecured and does not bear interest. The term of the loan is ten years from the initial loan disbursement date which occurred on September 24, 2009. Principal payments are due annually commencing two years from the date of the initial loan disbursement in an amount equal to the lesser of (i) 10% of the total cumulative amount of loan disbursements made by WRD during the immediately preceding twelve month period or (ii) \$220,000.

B. Business-type Activities (Continued)

Loans Payable

The debt service schedule to maturity is as follows:

| Year Ending June 30 | P | rincipal | In | terest | Total | | |

1999 Tax Allocation Bonds Series A

On October 1, 1999, the former Redevelopment Agency issued \$6,760,000 Redevelopment Project No. 1 Tax Allocation Parity Refunding Bonds, 1999 Series A, to refinance a portion of the 1992A Bonds and to finance certain obligations under a Participation Agreement with Lakewood Mall Business Company. The 1999A Bonds are secured by a pledge of tax increment revenue from Project Area No. 1.

The 1999A Bonds are serial bonds maturing annually each September 1 through the calendar year 2017, and bearing interest at rates ranging from 4.0% to 5.4%. Interest is payable semiannually on March 1 and September 1. The 1999A Bonds maturing on or after September 1, 2011, are subject to redemption prior to maturity at the option of the Agency as a whole, or in part, on or after September 1, 2009, by such maturities as designated by the Agency and by lot within a maturity, at a redemption price equal to the principal amount to be redeemed, plus a premium (expressed as a percentage of the principal amount of bonds to be redeemed) plus accrued interest to the redemption date. The redemption prices range from 100% to 102%.

C. Fiduciary Fund Financial Statements (Continued)

Total debt service requirements to maturity are as follows:

| Year Ending June 30 |] | Principal | I | nterest | Total |
|----------------------------|----|-----------|----|---------|-----------------|
| 2016 | \$ | 570,000 | \$ | 81,224 | \$ 651,224 |
| 2017 | | 600,000 | | 50,070 | 650,070 |
| 2018 | | 630,000 | | 17,010 | 647,010 |
| Total | \$ | 1,800,000 | \$ | 148,304 | \$ 1,948,304 |

2003 Tax Allocation Bonds Series A

On October 28, 2003, the former Redevelopment Agency issued \$5,565,000 Redevelopment Project No. 1 Tax Allocation Parity Refunding Bonds, 2003 Series A, to refinance the outstanding 1992A Bonds. The 1992A Bonds were called in full on December 22, 2003. The Series 2003A Bonds were issued at a premium of \$66,514. This premium is being amortized on a straight-line basis as an adjustment to interest expense on the statement of activities through the year 2018. The 2003A Bonds are secured by a pledge of tax increment revenue from Project Area No. 1 on parity with the remaining 1999A Bonds.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$81,827. This difference, reported as a deduction from bonds payable, is being amortized on a straight-line basis as interest expense.

The 2003A Bonds are serial bonds maturing annually each September 1 through the calendar year 2017, and bearing interest at rates ranging from 2.5% to 4.15%. Interest is payable semiannually on March 1 and September 1. The 2003A Bonds maturing on or after September 1, 2014, are subject to redemption prior to maturity at the option of the Agency as a whole, or in part, on or after September 1, 2013, by such maturities as designated by the Agency and by lot within a maturity, at a redemption price equal to one hundred percent (100%) of the principal amount to be redeemed, plus accrued interest to the redemption date.

Series 2003A total debt service requirements to maturity are as follows:

| Year Ending June 30 |] | Principal | I | nterest | Total | | | |
|------------------------|----|-----------|----|---------|-------|-----------|--|--|
| 2016 | \$ | 455,000 | \$ | 48,208 | \$ | 503,208 | | |
| 2017 | | 475,000 | | 29,835 | | 504,835 | | |

2003 Tax Allocation Bonds Series B

On October 28, 2003, the former Redevelopment Agency issued \$2,805,000 Redevelopment Project No. 1 Taxable Tax Allocation Parity Refunding Bonds, 2003 Series B, to refinance the outstanding 1992B Bonds. The 1992B Bonds were called in full on December 22, 2003. The 2003B Bonds are secured by a pledge of tax increment revenue from Project Area No. 1 on parity with the remaining 1999A Bonds.

The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$46,291. This difference, reported as a deduction from bonds payable, is being amortized on a straight-line basis as interest expense.

The 2003B Bonds are serial bonds maturing annually each September 1 through the calendar year 2017, and bearing interest rates ranging from 3.89% to 5.59%. Interest is payable semiannually on March 1 and September 1. The 2003B Bonds maturing September 1, 2017, are subject to redemption prior to maturity at the option of the Agency as a whole, or in part, on or after September 1, 2013, by such maturities as designated by the Agency and by lot within a maturity, at a redemption price equal to one hundred percent (100%) of the principal amount to be redeemed, plus accrued interest to the redemption date.

| Year Ending | | | | | | | |

Series 2003B total debt service requirements to maturity are as follows:

Note 10 – Defined Contribution Plan

The City provides a tax qualified retirement savings plan under Section 401(a) of the Internal Revenue Code to all fulltime employees. The Plan is a defined contribution plan and benefits depend solely on amounts contributed to the plan and investment earnings. The Plan is administered by the Public Agency Retirement System ("PARS") and the City Council has the authority for establishing and amending the plan provisions. There were 182 employees covered by the Plan for the year ended June 30, 2015. Employer contributions are based on an employee's tier of eligibility. Depending on the limits and requirements of the eligible tier, the City will contribute certain amounts equivalent to an employee's eligible unused accrued vacation time, compensatory time, floating holidays, sick leave and administrative leave. Employee contributions are mandatory and are also based on an employee's tier of eligibility. The amount of the mandatory employee contribution will depend on the limits and requirements of the tier which take into consideration an employee's longevity, merit adjustments and prescribed plan percentages.

For the year ended June 30, 2015, employee contributions totaled \$342,979 and employer contributions totaled \$199,904.

A. CalPERS Plan

General Information about the Pension Plan

Plan Description

The City contributes to the California Public Employees' Retirement System ("CalPERS"), an agent multiple-employer public employee defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by state statute and City ordinance. A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2013 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

<u>Benefit Provided</u>

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. A classic CalPERS member becomes eligible for service retirement upon attainment of age 55 with at least 5 years of credited service. During the year ended June 30, 2013, the California's Public Employees' Pension Reform Act ("PEPRA") went into effect. Employees hired after January 1, 2013 who are new to the CalPERS system are part of the PEPRA plan. PEPRA members become eligible for service retirement upon attainment of age 52 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 or 12 consecutive months' full-time equivalent monthly pay. Retirement benefits for classic employees are calculated as 2% of the average final 36 months compensation.

Participant is eligible for non-industrial disability retirement if becomes disabled and has at least 5 years of credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8 percent of final compensation, multiplied by service. Industrial disability benefits are not offered.

An employee's beneficiary may receive the basic death benefit if the employee dies while actively employed. The employee must be actively employed with the City to be eligible for this benefit. An employee's survivor who is eligible for any other pre-retirement death benefit may choose to receive that death benefit instead of this basic death benefit. The basic death benefit is a lump sum in the amount of the employee's accumulated contributions, where interest is currently credited at 7.5 percent per year, plus a lump sum in the amount of one month salary for each completed year of current service, up to a maximum of six months salary. For purposes of this benefit, one month's salary is defined as the member's average monthly full-time rate of compensation during the 12 months preceding death.

Upon the death of a retiree, a one-time lump sum payment of \$500 will be made to the retiree's designated survivor(s), or to the retiree's estate.

Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance. Beginning the second calendar year after the year of retirement, retirement and survivor allowances will be annually adjusted on a compound basis by 2 percent.

A. CalPERS Plan (Continued)

General Information about the Pension Plan (Continued)

Employees Covered by Benefit Terms

At June 30, 2013, the valuation date, the following employees were covered by the benefit terms:

| Active employees | 259 |
|--------------------------------------|-----|
| Transferred and terminated employees | 260 |
| Retired Employees and Beneficiaries | 204 |
| Total | 723 |

Contributions

Section 20814(c) of the California Public Employees' Retirement Law ("PERL") requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. For the measurement period ended June 30, 2014, the average active employee contribution rates was 6.973% of annual pay, and the employer's contribution rates were 12.744% of the annual payroll.

Net Pension Liability

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2014, the total pension liability was determined by rolling forward the June 30, 2013 total pension liability. The June 30, 2013 and the June 30, 2014 total pension liabilities were based on the following actuarial methods and assumptions:

| Actuarial Cost Method | Entry Age Normal in accordance with the requirement of GASB |
|----------------------------------|---|
| | Statement No. 68 |
| Actuarial Assumptions: | |
| Discount Rate | 7.50% |
| Inflation | 2.75% |
| Salary Increases | Varies by Entry Age and Service |
| Investment Rate of Return | 7.50% Net of Pension Plan Investment and Administrative |
| | Expenses; includes Inflation |
| Mortality Rate Table | Derived using CalPERS' Membership Data for all Funds. The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. |
| Post Retirement Benefit Increase | Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter |

A. CalPERS Plan (Continued)

Net Pension Liability (Continued)

Actuarial Methods and Assumptions Used to Determine Total Pension Liability (Continued)

All other actuarial assumptions used in the June 30, 2013 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent, which is net of administrative expenses. An investment return excluding administrative expenses would have been 7.65 percent. Management has determined that using the lower discount rate has resulted in a slightly higher total pension liability and net pension liability and the difference was deemed immaterial to the financial statement. The long-term expected rate of return on pension plan investments was determined in which best-estimate ranges of expected future real rates are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were considered. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

| | New Strategic | Real Return | Real Return |
|-------------------------------|---------------|---------------------------|------------------------|
| Asset Class | Allocation | Years 1 - 10 ¹ | Years 11+ ² |
| Global Equity | 47.00% | 5.25% | 5.71% |
| Global Fixed Income | 19.00% | 0.99% | 2.43% |
| Inflation Sensitive | 6.00% | 0.45% | 3.36% |
| Private Equity | 12.00% | 6.83% | 6.95% |
| Real Estate | 11.00% | 4.50% | 5.13% |
| Infrastructure and Forestland | 3.00% | 4.50% | 5.09% |
| Liquidity | 2.00% | -0.55% | -1.05% |
| | 100.00% | | |

¹ An expected inflation of 2.5% used

² An expected inflation of 3.0% used

Changes in the Net Pension Liability

The following table shows the changes in net pension liability recognized over the measurement period.

| | Increase (Decrease) | | | | | |
|--|-----------------------------------|------------------------|---------------------------------------|------------------------|--|----------------------------|
| | Total Pension Liability (a) | | Plan Fiduciary Net Position (b) | | t Net Pension Liability/(Asset (c) = (a) - (b) | |
| Balance at June 30, 2013 (Valuation Date) | \$ | 108,045,583 | \$ | 81,258,902 | \$ | 26,786,681 |
| Changes Recognized for the Measurement Period: | | | | | | |
| Service Cost Interest on the total pension liability | | 2,144,455 8,019,215 | | | | 2,144,455 8,019,215 |
| Changes of benefit terms | | | | | | |
| Difference between expected and actual experience Changes of assumptions | | - | | | | - |
| Contributions from the employer Contributions from employees | | | | 1,873,372 1,012,408 | | (1,873,372) (1,012,408) |
| Net investment income, net of administrative expens Benefit payments, including refunds of employee | e | | | 14,100,175 | | (14,100,175) |
| contributions | | (4,389,897) | | (4,389,897) | | - |
| Net Changes during July 1, 2013 to June 30, 2014 | \$ | 5,773,773 | \$ | 12,596,058 | \$ | (6,822,285) |
| Balance at June 30, 2014 (Measurement Date) | \$ | 113,819,356 | \$ | 93,854,960 | \$ | 19,964,396 |

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.5%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.50%) or 1 percentage-point higher (8.50%) than the current rate:

| Plan's Net Pension Liability/(Asset) | | | | | | |
|--|------------|--------------|------------|----|-----------|--|
| Discount Rate - 1% Current Discount Discount Rate + 1% | | | | | | |
| | (6.50%) | Rate (7.50%) | | | (8.50%) | |
| \$ | 34,231,900 | \$ | 19,964,396 | \$ | 8,023,375 | |

Pension plan fiduciary net position

Detailed information about the plan's fiduciary net position is available in the separately issued CalPERS financial report.

A. CalPERS Plan (Continued)

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the measurement period ending June 30, 2014, the City incurred a pension expense of \$1,515,972.

As of measurement date of June 30, 2014, the City has deferred outflows and deferred inflows of resources related to pensions as follows:

| | Deferred outflows of Resources | | Deferred inflows of Resources | | |
|--|-----------------------------------|-----------|----------------------------------|-------------|--|
| Contribution made after the measurement date | \$ | 1,871,750 | \$ | - | |
| Difference between expected and actual experience | | - | | - | |
| Changes of assumptions | | - | | - | |
| Net difference between projected and actual earning on | | | | | |
| pension plan investments | | - | | (6,464,885) | |
| Total | \$ | 1,871,750 | \$ | (6,464,885) | |

The amounts above are net of outflows and inflows recognized in the 2013-14 measurement period expense.

The expected average remaining service lifetime ("EARSL") is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired). The EARSL for the 2013-14 measurement period is 3.6 years, which was obtained by dividing the total service years of 2,592 (the sum of remaining service lifetimes of the active employees) by 723 (the total number of participants: active, inactive, and retired).

The \$1,871,750 reported as deferred outflows of resources related to pension resulting from the City's contributions subsequent to the measurement date during the year ended June 30, 2015 will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

| Year Ended | Outf | Deferred lows/(Inflows) ? Resources |
|------------|------|---|
| June 30 | | ellaneous Plan |
| 2016 | \$ | (1,616,221) |
| 2017 | | (1,616,221) |
| 2018 | | (1,616,221) |
| 2019 | | (1,616,221) |
| 2010 | | - |
| Thereafter | | - |
| | \$ | (6,464,884) |

B. Retirement Enhancement Plan

General Information about the Pension Plan

Plan Description

The City provides a 401(a) defined benefit retirement enhancement plan under the terms of a Memorandum of Understanding (MOU) between the City and its employees. The Plan is part of an agent multiple employer plan administered by the Public Agency Retirement Service (PARS). A separate audited GAAP-basis post-employment benefit plan report is not available for this Plan. Due to PEPRA legislation the Plan is closed to employees hired by the City after December 31, 2012.

Benefit Provided

The benefit is equal to 0.5% of final average compensation for all future years of City service (on or after July 1, 2005) and for 75% of past years of City service (before July I, 2005). Eligibility for an immediate benefit is defined as reaching age 60, completing two years of full-time continuous Lakewood service, and retiring concurrently from both the City and CalPERS after leaving City employment on or after July 1, 2006. Employees terminating from the City with two years of service and concurrent retirement with CalPERS but prior to age 60 may choose to receive either a deferred retirement benefit to begin at age 60 or a refund of their employee contributions with 3% interest compounded annually. All other terminating employees will receive a refund of their employee contributions with 3% interest.

Final average compensation is equal to the highest year of compensation with the City, including CalPERS employer paid member contributions (salary plus 7%), subject to IRC 401(a)(17) limitations. Salary includes longevity pay.

There is no disability benefit or death benefit under this plan.

The normal form of benefit is a life-only annuity. In lieu of a life-only annuity, a participant may elect an actuarial equivalent optional form of payment. The optional form is a joint and survivor annuity.

Any benefit in payment status will increase by 2% per annum on each participant's anniversary date of retirement.

Employees Covered by Benefit Terms

At June 30, 2013, the valuation date, the following employees were covered by the benefit terms:

| Active employees | 168 |
|-------------------------------------|-----|
| Terminated employees | 17 |
| Retired Employees and Beneficiaries | 29 |
| Total | 214 |

Contributions

Employees contribute 3.00% of compensation of which the City picks-up 0.13%.

B. Retirement Enhancement Plan (Continued)

Net Pension Liability

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2014, the total pension liability was determined by rolling forward the June 30, 2013 total pension liability. The June 30, 2013 and the June 30, 2014 total pension liabilities were based on the following actuarial methods and assumptions:

| Entry Age Normal |
|--|
| |
| 7.00% |
| 3.00% |
| Increase are based on service, ranges from 12.65% to 3.85% for 0 to |
| 22 or more years of service, respectively. |
| 2.00% compounded annually |
| Consistent with Non-Industrial rate used to value the Miscellaneous |
| CalPERS Pension Plans. |
| Consistent with Non-Industrial rate used to value the Miscellaneous |
| CalPERS Pension Plans. |
| Ranges from 8% at age 55 to 100% at age 75+. |
| Ranges from 0.021% and 0.020% at age 30 to 0.331% and 0.311% at |
| age 50 for male and female, respectively. |
| None are assumed. |
| All current participants are assumed to elect a single life annuity. |
| Active employees terminating prior to attainment of age 55 and completion of two years of service are assumed to elect a refund of their contributions with interest |
| |

Discount Rate

The discount rate used to measure the total pension liability was 7 percent. The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

B. Retirement Enhancement Plan (Continued)

Changes in Net Pension Liability (Continued)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.0%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.00%) or 1 percentage-point higher (8.00%) than the current rate:

| | 1% | | Discount | | 1% | |
|------------------------------|----------|-----------|----------|-----------|----------|---------|
| | Decrease | | Rate | | Increase | |
| | | (6.00%) | (7.00%) | | (8.00%) | |
| Plan's Net Pension Liability | \$ | 3,833,593 | \$ | 1,895,872 | \$ | 267,574 |

Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available upon request.

Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the measurement period ending June 30, 2014, the City incurred a pension expense of \$561,671.

As of measurement date of June 30, 2014, the City has deferred outflows and deferred inflows of resources related to pensions as follows:

| | | rred outflows Resources | Deferred inflows of Resources | | |
|--|----|----------------------------|----------------------------------|---|--|
| Difference between expected and actual experience | \$ | - | \$ | - | |
| Changes of assumptions | | - | | - | |
| Net difference between projected and actual earning or | ı | | | | |
| pension plan investments | | 426,371 | | - | |
| Total | \$ | 426,371 | \$ | - | |

The amounts above are net of outflows and inflows recognized in the 2013-14 measurement period expense. Amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

| Measurement Period Ended June 30 | Deferred Outflows/(Inflows) of Resources | | | | |
|-------------------------------------|--|--------------------|--|--|--|
| 2015 | \$ | 106,593 | | | |
| 2016 2017 | | 106,593 106,593 | | | |
| 2018 2019 | | 106,592 | | | |
| Thereafter | \$ | 426,371 | | | |

Note 12 - Other Post-Employment Benefits

Plan Description

The City provides a post-retirement medical care benefit under the terms of a Memorandum of Understanding ("MOU") between the City and its employees. The Plan is part of an agent multiple employer plan administered by PARS. The benefit is in the form of a monthly supplemental payment to assist qualified retirees with premium payment on medical insurance. Effective July 1, 1989, this benefit is available to all employees retiring under the Public Employees Retirement System directly from Lakewood City service on or after attaining age 60 and who have completed at least 15 years of continuous service to the City as a full-time, regular employee immediately prior to retiring. Effective July 1, 2001, this benefit was modified and is also available to all employees retiring under the Public Employees Retirement System directly from Lakewood City service on or after age 55 and who have completed at least 20 years of continuous service to the City as a full-time, regular employee immediately prior to retiring. The benefit is a "defined dollar benefit" set at \$542 per month on January 1, 2014, continuing until the retiree has met Medicare age. Thereafter, the payment is decreased to \$295 per month. The benefit is increased annually according to the terms of the MOU. The maximum term of benefits paid a qualifying employee is equal to the number of months of continuous Lakewood City service. A separate audited GAAP-basis post-employment benefit plan report is not available for this Plan.

Funding Policy

The contribution requirements of plan members and the City are established and may be amended by the City, City Council, and/or the employee associations. Currently, contributions are not required from plan members. During the fiscal year ended June 30, 2015, the City made contributions of \$257,784 on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation (Asset)

The City's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC) an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The ARC for fiscal year 2014-15 was \$150,752 and was determined as part of an actuarial valuation as of July 1, 2013.

The following table shows the component of the City's annual OPEB costs for the year, the amount actually contributed to the plan, and changes in the City's net OPEB asset.

| Annual Required Contribution (ARC) Interest Adjustment on Net OPEB Assets | \$ 150,752 (233,386) |
|--|----------------------------|
| Amortization Adjustment to ARC | 279,879 |
| Annual OPEB Cost | 197,245 |
| Contribution Made | (257,784) |
| Increase in Net OPEB Assets | (60,539) |
| Net OPEB Assets: | |
| Beginning of Year | (3,852,484) |
| End of Year | \$ (3,913,023) |

Note 12 – Other Post-Employment Benefits (Continued)

Three-Year Trend Information

For the year ended June 30, 2015, the City's annual OPEB cost (expense) of \$197,245 was greater than the ARC. Information on the annual OPEB cost, percentage of Annual OPEB Cost contributed, and Net OPEB Obligation is presented below:

| Fiscal Year | Annual OPEB | Actual Contribution | | Percentage of APC | | Net OPEB (Assets) |
|-------------|----------------|------------------------|---------|-------------------|----|----------------------|
| Ending | Cost | (Net of Adjustments) | | Contributed Obli | | Obligation |
| 6/30/2013 | \$ 331,391 | \$ | 149,948 | 45.25% | \$ | (3,889,772) |
| 6/30/2014 | 193,512 | | 156,224 | 80.73% | | (3,852,484) |
| 6/30/2015 | 197,245 | | 257,784 | 130.69% | | (3,913,023) |

Funded Status and Funding Progress

As of July 1, 2015, the latest actuarial valuation date, the plan was 101.21% funded. The actuarial accrued liability for benefits was \$8,159,602 and the actuarial value of assets was \$8,258,175 resulting in an actuarial surplus of \$98,573. The covered payroll (annual payroll of active employees covered by the plan) was \$10,819,843 and the ratio of the surplus to the covered payroll was 0.91%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the City are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to basic financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and the plan members at that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets consistent with the long-term perspective of the calculations. In the July 1, 2015, actuarial valuation, the projected unit credit cost method was used. The actuarial assumptions included a discount rate of 6.0% per annum, a rate of return on assets of 6.0% per annum and a healthcare cost trend rate of 8.0% initially, reduced by annual decrements of 1.0% to an ultimate rate of 5.0% after three years. The City's unfunded actuarial accrued liability is being amortized by level dollar contributions over a twenty-year open period.

Note 13 – Deferred Compensation Plan

The City has made available to its employees two deferred compensation plans, whereby employees authorize the City to withhold funds from salary to be invested in the ICMA Retirement Corporation or the CalPERS California Employees Deferred Compensation Plan. Funds may be withdrawn by participants upon termination of employment or retirement. The City makes no contributions under the plans. The City withholds employee contributions from employee's payroll checks and transmits these monies to the plan providers on a bi-weekly basis. The City makes distributions from the plans based solely upon authorizations from the plan administrator.

Pursuant to changes in Internal Revenue Code ("IRC") Section 457 on November 26, 1997, the City formally established a plan level trust in which all assets and income of the 457 plan were placed. The assets, all property and rights purchased with such amount, and all income attributable to such amounts, property, or rights are held in trust for the exclusive benefit of the participants and their beneficiaries. These assets are no longer the property of the City and, as such, are no longer subject to the claims of the City's general creditors. As a result, the assets of the 457 plan are no longer reflected in the financial statements. The City had minimal involvement in the administration of the 457 plan and, therefore, lacks the fiduciary accountability that would have required the 457 plan to be recorded.

Plan assets are held in trust for the exclusive benefit of participant and their beneficiaries; and therefore, are not included in the accompanying financial statements.

Note 14 – Liabilities, Property and Workers' Compensation Protection

A. Description of Self-Insurance Pool Pursuant to Joint Powers Agreement

The City is a member of the California Joint Powers Insurance Authority (the "Authority"). The Insurance Authority is composed of 122 California public entities and is organized under a joint powers agreement pursuant to California Government Code Section 6500 et. seq. The purpose of the Insurance Authority is to arrange and administer programs for the pooling of self-insured losses, to purchase excess insurance or reinsurance, and to arrange for group purchased insurance for property and other lines of coverage. The Insurance Authority began covering claims of its members in 1978. Each member government has an elected official as its representative on the Board of Directors. The Board operates through a 9-member Executive Committee.

B. Self-Insurance Programs of the Insurance Authority

Each member pays an annual contribution to cover estimated losses for the coverage period. This initial funding is paid at the beginning of the coverage period. After the close of the coverage period, outstanding claims are valued. A retrospective deposit computation is then conducted annually thereafter until all claims incurred during the coverage period are closed on a pool-wide basis. This subsequent cost re-allocation among members based on actual claim development can result in adjustments of either refunds or additional deposits required.

The total funding requirement for self-insurance programs is estimated using actuarial models and pre-funded through the annual contribution. Costs are allocated to individual agencies based on exposure (payroll) and experience (claims) relative to other members of the risk-sharing pool. Additional information regarding the cost allocation methodology is provided below.

Note 14 – Liabilities, Property and Workers' Compensation Protection (Continued)

B. Self-Insurance Programs of the Insurance Authority (Continued)

Liability

In the liability program claims are pooled separately between police and non-police exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$30,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$30,000 to \$750,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$30,000 to \$750,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs in excess of \$750,000 up to the reinsurance attachment point of \$5 million are distributed based on the outcome of cost allocation within the first and second loss layers. (5) Costs of covered claims from \$5 million to \$10 million are paid under a reinsurance contract subject to a \$2.5 million annual aggregate deductible. The \$2.5 million annual aggregate deductible is fully covered under a separate policy; as such no portion of it is retained by the Insurance Authority. (6) Costs of covered claims from \$15 million up to \$50 million are covered through excess insurance policies.

The overall coverage limit for each member including all layers of coverage is \$50 million per occurrence.

Costs of covered claims for subsidence losses are paid by reinsurance and excess insurance with a pooled sublimit of \$25 million per occurrence. This \$25 million subsidence sub-limit is composed of (a) \$5 million retained within the pool's SIR, (b) \$10 million in reinsurance and (c) \$10 million in excess insurance. The excess insurance layer has a \$10 million annual aggregate.

Workers' Compensation

In the workers' compensation program claims are pooled separately between public safety (police and fire) and non-public safety exposures. (1) The payroll of each member is evaluated relative to the payroll of other members. A variable credibility factor is determined for each member, which establishes the weight applied to payroll and the weight applied to losses within the formula. (2) The first layer of losses includes incurred costs up to \$50,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the first layer. (3) The second layer of losses includes incurred costs from \$50,000 to \$100,000 for each occurrence and is evaluated as a percentage of the pool's total incurred costs within the second layer. (4) Incurred costs in excess of \$100,000 up to the reinsurance attachment point of \$2 million are distributed based on the outcome of cost allocation within the first and second loss layers. (5) Costs of covered claims from \$2 million up to statutory limits are paid under a reinsurance policy. Protection is provided per statutory liability under California Workers' Compensation Law.

Employer's Liability losses are pooled among members to \$2 million. Coverage from \$2 million to \$5 million is purchased as part of a reinsurance policy, and Employer's Liability losses from \$5 million to \$10 million are pooled among members.

Note 14 – Liabilities, Property and Workers' Compensation Protection (Continued)

C. Purchased Insurance

Pollution Legal Liability Insurance

The City participates in the pollution legal liability insurance program (formerly called environmental insurance) which is available through the Insurance Authority. The policy covers sudden and gradual pollution of scheduled property, streets, and storm drains owned by the City. Coverage is on a claims-made basis. There is a \$50,000 deductible. The Insurance Authority has a limit of \$10 million for the 3-year period from July 1, 2014 through July 1, 2017. Each member of the Insurance Authority has a \$10 million sub-limit during the 3-year term of the policy.

Property Insurance

The City participates in the all-risk property protection program of the Insurance Authority. This insurance protection is underwritten by several insurance companies. The City's property is currently insured according to a schedule of covered property submitted by the City to the Insurance Authority. City property currently has all-risk property insurance protection in the amount of \$52,588,393. There is a \$5,000 deductible per occurrence except for non-emergency vehicle insurance which has \$1,000 deductible. Premiums for the coverage are paid annually and are not subject to retroactive adjustments.

Earthquake and Flood Insurance

The City purchases earthquake and flood insurance on a portion of its property. The earthquake insurance is part of the property protection insurance program of the Insurance Authority. City property currently has earthquake protection in the amount of \$32,642,568. There is a deductible of 5% of per unit of value with a minimum deductible of \$100,000. Premiums for the coverage are paid annually and are not subject to retroactive adjustments.

Crime Insurance

The City purchases crime insurance coverage in the amount of \$3,000,000 with a \$2,500 deductible. The fidelity coverage is provided through the Insurance Authority. Premiums are paid annually and are not subject to retroactive adjustments.

Special Event Tenant User Liability Insurance

The City further protects against liability damages by requiring tenant users of certain property to purchase lowcost tenant user liability insurance for certain activities on City property. The insurance premium is paid by the tenant user and is paid to the City according to a schedule. The City then pays for the insurance. The insurance is arranged by the Insurance Authority.

D. Adequacy of Protection

During the past three fiscal years, none of the above programs of protection have experienced settlements or judgments that exceeded pooled or insured coverage. There were also no significant reductions in pooled or insured liability coverage in 2014-2015.

The aforementioned information is not included in the accompanying financial statements. Complete financial statements for the Insurance Authority may be obtained at their administrative office located at 8081 Moody Street, La Palma, California 90623.

Note 15 – Commitments and Contingencies

A. Lawsuits

Numerous claims and suits have been filed against the City in the normal course of business. Based upon information received from the City Attorney and the self-insurance administrator, the estimated liability under such claims would be adequately covered by self-insurance designations and insurance coverage.

B. Contract with Los Angeles County Sheriff's Department

The City contracts for policing services through the Los Angeles County Sheriffs Department. As part of the agreement for services, the City is required to pay an additional 4% premium over the contract price to the Sheriff's Department for liability insurance. This amount is held by the County in a Liability Trust Fund and provides for the payment of claims brought against the Sheriff's Department.

C. Lighting Maintenance Contract with City Light and Power Lakewood, Inc.

In November 1997, the City entered into a lighting maintenance contract with City Light and Power Lakewood, Inc. The contract requires the City to pay a basic annual rent of \$544,250, with a portion of the basic rent adjusted annually using the current consumer price index. During the year ended June 30, 2015, the City was paying \$56,762 per month for the maintenance contract. The contract expires in November 2022.

D. Lease Agreement with Lakewood Mall Business Company

On September 14, 1999, the former Lakewood Redevelopment Agency also approved an agreement to lease 1,900 parking stalls from the Lakewood Mall Business Company to provide public parking. Rent is comprised of basic rent and additional rent. The basic rent is \$450,000 per year. The additional rent is based on the amount of additional tax increment received above a base year amount and is capped at \$300,000 per year. The agreement also allows for catch up payments in the event that additional rent is less than the cap in the first three years of the lease. Catch up payments are only due when additional rent exceeds the \$300,000 annual cap in future years. The Agency also entered into a sublease with the developer in order for the developer to operate and maintain the premises as public facilities. The annual lease payments will be paid with tax increment revenues generated by the Mall. For the fiscal year ended June 30, 2015, the Agency's obligation under this agreement totaled \$750,000.

E. Agreement for Allocation of Tax Increment Revenue

On June 13, 1989, the former Lakewood Redevelopment Agency entered into an agreement for the allocation of tax increment revenue generated from Project Area No. 2. As part of the agreement, the Agency is required to reimburse the Consolidated Fire Protection District of Los Angeles County 17.26% of tax increment revenues and Los Angeles County 54.59% of tax increment revenue. The Los Angeles County portion may be deferred in any year under certain terms of the agreement until total tax increment of the Agency reaches a cumulative total of \$60,000,000. After the total reaches \$60,000,000, the Agency is required to reimburse Los Angeles County 100% of tax increment revenue (net of the allocation to the Consolidated Fire Protection District of Los Angeles County) until the deferred sums have been repaid. Interest on any deferral amounts was prepaid in a lump sum of \$842,000 in fiscal year 1990-91. At June 30, 2015, the Agency's outstanding deferral balance is \$843,589.

Note 16 – Individual Fund Disclosures

Funds with a deficit fund balance/net position at June 30, 2015, are as follows:

| Governmnetal Funds: | |
|--|-----------------|
| Park Dedication Special Revenue Fund | \$ (335,130) |
| CDBG Special Revenue Fund | (798) |
| Prop A Recreation Special Revenue Fund | (142,932) |
| Measure R Special Revenue Fund | (21,704) |
| River Park Grant Special Revenue Fund | (310,830) |
| Open Space Special Revenue Fund | (23,374) |
| Internal Service Fund | |
| Print Shop | (14,351) |

The City plans to eliminate the \$14,351 deficit in Print Shop through a transfer from the General Fund and the remaining deficits through pending grant funding.

Note 17 – Prior Period Adjustment

The City implemented GASB Statement No. 68 and No. 71 during the year ended June 30, 2015. The beginning net positions at July 1, 2014 were restated as follows:

| | | | Bı | isiness-type | | | |
|---|----------------------------|--------------|--------------------------|--------------|--------------------------|-------------|--|
| | | Activity - | | | Proprietary Fund | | |
| | Governmental Activities | | Water Enterprise Fund | | Water Enterprise Fund | | |
| Net Position at July 1, 2014 | \$ | 156,011,656 | \$ | 35,167,102 | \$ | 35,786,452 | |

City of Lakewood Required Supplementary Information (Unaudited) Notes to Budgetary Comparison Schedule For the Year Ended June 30, 2015

Budget and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The annual budget adopted by the City Council provides for the general operation of the City. It includes proposed expenditures and the means of financing them.
- 2. The City Council approves total budgeted appropriations and any amendments to appropriations throughout the year. This "appropriated budget" covers substantially all City expenditures, with the exception of debt service on bond issues and capital improvement projects, which expenditures constitute legally-authorized "non-appropriated budget". There were no significant non-budgeted financial activities. Actual expenditures may not exceed budgeted appropriations at the fund level. The City Manager is authorized to make transfers of budget appropriations between classifications and activities within a fund.
- 3. Formal budgetary integration is employed as a management control device. Commitments for materials and services, such as purchase orders and contracts, are recorded during the year as encumbrances to assist in controlling expenditures. Appropriations, which are encumbered at year end, are added to the following year's budgeted appropriations. However, encumbrances at year end are reported as assigned fund balance.
- 4. Budgets for the General and Special Revenue Funds are adopted on a basis substantially consistent with accounting principles generally accepted in the United States of America. Accordingly, actual revenues and expenditures can be compared with related budgeted amounts without any significant reconciling items. No budgetary comparison is presented for the Sewer Reconstruction Special Revenue Fund since no budgets were adopted for this funds. No budgetary comparisons are presented for Proprietary Funds as the City is not legally required to adopt a budget for these types of funds.
- 5. Capital project budgets are long term in nature and, accordingly, no budgetary comparisons are reflected in the accompanying financial statements.
- 6. Under Article XIIIB of the California Constitution (the Gann Spending Limitation Initiative), the City is restricted as to the amount of annual appropriations from the proceeds of taxes, and if proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller, returned to the taxpayers through revised tax rates or revised fee schedules, or an excess in one year may be offset against a deficit in the following year. For the fiscal year ended June 30, 2015, based on calculations by City Management, proceeds of taxes did not exceed related appropriations. Further, Section 5 of Article XIIIB allows the City to designate a portion of fund balance for general contingencies, to be used in future years without limitation. In 2009-10, the City Council passed a resolution setting aside all unappropriated fund balances in the General Fund as contingency funds.

Notes to Schedule:

Changes of Assumptions: There were no changes in assumptions.

City of Lakewood Required Supplementary Information (Unaudited) (Continued) Schedule of Contributions June 30, 2015

Last Ten Fiscal Years

California Public Employees' Retirement System ("CalPERS")

| | 2014-15 ¹ | 2013-14 ¹ |
|---|--------------------------|--------------------------|
| Actuarially determined contribution | \$ 1,871,750 | \$ 1,873,372 |
| Contributions in relation to the actuarially determined contribution ² | (1,871,750) | (1,873,372) |
| Contribution deficiency (excess) | \$ - | \$ - |
| Covered-employee payroll ^{3, 4} | \$ 15,723,153 | \$ 15,265,197 |
| Contributions as a percentage of covered-employee payroll ³ | 11.90% | 12.27% |

¹Historical information is required only for measurement periods for which GASB 68 is applicable.

 2 Employers are assumed to make contributions equal to the actuarially determined contributions. However, some employers may choose to make additional contributions towards their unfunded liability. Employer contributions for such plans exceed the actuarially determined contributions.

³ Covered-Employee Payroll represented above is based on pensionable earnings provided by the employer. However, GASB 68 defines covered-employee payroll as the total payroll of employees that are provided pensions through the pension plan. Accordingly, if pensionable earnings are different than total earnings for covered-employees, the employer should display in the disclosure footnotes the payroll based on total earnings for the covered group and recalculate the required payroll-related ratios.

⁴ Payroll from prior year \$14,820,580 (2012-13) was assumed to increase by the 3.00 percent payroll growth assumption.

Notes to Schedule:

Valuation date:

The actuarial methods and assumptions used to set the actuarially determined contributions for Fiscal Year 2014-15 and 2013-14 were from the June 30, 2012 and 2011 public agency valuations, respectively.

Methods and assumptions used to determine contribution rates:

| Actuarial cost method | Entry Age Normal Cost Method |
|-------------------------------|--|
| Amortization method | Level percentage of payroll, closed |
| Remaining amortization period | 18 years for valuation dated June 30, 201224 years for valuation dated June 30, 2011 |
| Asset valuation method | 15 year smoothed market |
| Inflation | 2.75% |
| Salary increases | 3.30% to 14.20% depending on age, service, and type of employment |
| Payroll Growth | 3.00% |
| Investment rate of return | 7.50%, net of pension plan investment expense, including inflation |
| Retirement age | The probabilities of retirement are based on the 2010 CalPERS Experience study for the period from 1997 to 2007. |
| Mortality | The probabilities of mortality are based on the 2010 CalPERS Experience Study for the period from 1997 to 2007. Pre-retirement and Post-retirement mortality rates include 5 years of projected mortality improvement using Scale AA published by the Society of Actuaries. |

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds are used to account for taxes and other revenues set aside in accordance with the law or administrative regulations for a specific purpose.

State Gasoline Tax Fund - To account for state gasoline taxes received by the City. These funds may be used for street maintenance, right-of-way acquisition, and street construction.

Park Dedication Fund - To account for business taxes collected on the construction of dwelling units. These funds are used only for park and recreation land and facilities.

Sewer Reconstruction Fund - To account for charges collected on construction permits to be used for the reconstruction of sanitary sewers.

Prop A Transit Fund - To account for Los Angeles County special 1/2 cent transportation sales tax which became effective July 1, 1982. These funds may be used only for certain transportation purposes.

Prop C Transportation Fund - To account for Los Angeles County additional special 1/2 cent transportation sales tax which became effective July 1, 1992. These funds may be only used only for certain transportation purposes.

AB 2766 Fund - To account for motor vehicle registration fees authorized by Assembly Bill 2766. These funds are to be used solely to reduce air pollution from mobile sources.

Community Development Block Grant (CDBG) Fund - To account for funds received from the U.S. Department of Housing and Urban Development for use in community development projects.

State COPS Grants Fund - To account for state funding under the Citizens Option for Public Safety program to supplement City's current funding for front-line law enforcement services.

JAG Grants Fund - To account for receipts and expenditures of federal grants to support a broad range of activities to prevent and control crime and to improve the criminal justice systems.

Asset Forfeiture Fund - To account for receipts and expenditures of equitably shared forfeited Federal and State funds to support community policing activities, training and/or law enforcement operations.

Litter Reduction Grants Fund - To account for recycling and litter cleanup activities funded by the California Beverage Container Recycling and Litter Reduction Act.

TDA Activities Grants Fund - To account for proceeds received from LACMTA under the Transportation Development Act for use on pedestrians, bikeways and handicapped accessibility projects.

Used Oil Grants Fund - To account for funding received from California Integrated Waste Management for permanent and sustainable used oil recycling programs.

Prop A Recreation Fund - To account for expenditures and reimbursements of park maintenance and servicing of Prop A funded projects.

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds (Continued)

Measure R Fund - To account for Los Angeles County special 1/2 cent transportation sales tax which became effectively July 1, 2009. These funds may be used only for certain transportation purposes.

River Park Grant Fund - To account for funding received from California State Resources Agency for the purpose of providing pre-construction costs for the West San Gabriel Parkway - Phase III.

Open Space Fund - To account for funding received from the Los Angeles Regional Park and Open Space District for the West San Gabriel River Parkway Improvement Project – Phase III.

Capital Project Fund are used to account for resources used for the construction and acquisition of capital facilities.

Lakewood Capital Improvements Capital Projects Fund - To account for the receipt and disbursement of monies used for the construction of major capital facilities which generally require more than one budgetary cycle to complete. These projects are funded by the General Fund, Gas Tax Special Revenue Fund, and federal and state grants.

City of Lakewood Assessed Value and Estimated Actual Value of Taxable Property Last Ten Fiscal Years

(in thousands of dollars)

| cal Year Ended June 30 | Secured | Nonunitary | Unsecured | Taxable Assessed Value | Total Direct Tax Rate |
|---------------------------|-----------|------------|-----------|---------------------------|--------------------------|
| | | | | | |
| 2006 | 5,685,313 | 2,089 | 123,017 | 5,810,419 | 0.1679 |
| 2007 | 6,288,569 | 1,862 | 124,448 | 6,414,879 | 0.167 |
| 2008 | 6,855,443 | 268 | 122,010 | 6,977,721 | 0.169 |
| 2009 | 7,134,053 | 268 | 135,015 | 7,269,336 | 0.171 |
| 2010 | 6,877,477 | 268 | 129,973 | 7,007,718 | 0.180 |
| 2011 | 6,899,318 | 268 | 132,663 | 7,032,249 | 0.180 |
| 2012 | 7,028,289 | 258 | 140,375 | 7,168,922 | 0.181 |
| 2013 | 7,132,189 | 258 | 149,168 | 7,281,615 | 0.186 |
| 2014 | 7,335,693 | 258 | 138,341 | 7,474,292 | 0.061 |
| 2015 | 7,750,838 | 258 | 148,398 | 7,899,494 | 0.061 |

Note: In 1978, the voters of the State of California passed Proposition 13 which limited property taxes to a total maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only re-assessed at the time that it is sold to a new owner. At that point, the new assessed value is re-assessed at the purchase price of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of taxable property and is subject to the limitations described above.

| Total Direct Rate | \$ 1.2912 | \$ 1.5560 | \$ 1.3783 | \$ 1.3949 | \$ 1.4663 | \$ 1.4522 | \$ 1.4679 | \$ 1.5090 | \$ 1.3681 | \$ 1.4322 |

Note: In 1978, California voters passed Proposition 13 which sets the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of the School District bonds.

| Water Revenue Bonds | 100.000% | 2,456,517 | |
| Total Direct and Overlapping Debt | | | \$ 145,840,251 |

¹ For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable assessed value that is within the city's boundaries and dividing it by each unit's total taxable assessed value.

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Statistical. This process recognizes that, when considering the city's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident—and therefore responsible for repaying the debt—of each overlapping government.
