Lake wood

Greg #33 10-29-03 What I Like About ↑

There are many things that I Like Lake wood. Four of the things that I like best are schools, community, people, and hospitals.

I like the schools in Lake wood, CA. The schools are great because of the people who teach us students. It is also great, because of the learning that goes on at the schools. Every teacher, student, principal and custodians work hard. It is a hard working community that deserves a reward.

The parks are wonderful, because the employees that work there. The employees watch, and work there, for our safety. I think they are hard workers for our community. I know they try their best. I wish that they had more people like that.

I like the beautiful community. The community is great, because the air is nice, stores are great, library's have great books, it's quiet, the houses and theaters are great. All of the things and functions are helpful to this great community. This is a hard working full of energetic all the way working people.

The stores are one of the best things in Lakewood. Lakewood's stores are the best in any where I like all of the liquor stores, because they treat us right in this neighborhood. I know the stores are the best, I can get used to these stores.

Here in Lakewood they have a nice clean neighborhood. It smells so fresh and new. It is so nice you want to sleep in your backyard. In a nice neighborhood Lakewood is the best of them all. This is one mighty fine neighborhood.

In a nice neighborhood Lakewood is has the best of all any where. Lakewood is the perfect city of the world. This paper deserves this peace of writing.

I love this city.

P.S. Pick me.

A Lakewood Person I Admire  
By

Sheila Lainez

Dear Mr. Mayor,

I would like to tell you about my principal Mr. Camerino. Mr. Camerino is the principal of Gompers Elementary School and I admire him. He is a very nice man and a good principal. He is a good listener, and he is always fair. He is always there when we need him. He handles everything in a good way. He is a good sport when we play. He is always nice to our parents. He dresses up neatly.

Here is one example of why I admire him. One day a boy tripped and was injured out in the playground. Mr. Camerino went and picked up the boy in his arms and took him to the nurse. The next day everyone found out, and we were proud of him. Another example is when a boy kicked the ball over the fence. The boy that accidentally kicked the ball was worried he was going to get in trouble. The teacher gave him a pink slip and sent him to the principal's office. Mr. Camerino didn't scream nor did he get mad. He explained to the boy to be careful and not do that again.

I picked Mr. Camerino because he deserves to be recognized by all the people. I selected him because I admire him, and he is a very good person. I also picked him because he treats all the children all equally, and loves us all.

Mr. Camerino is a special person I know in Lakewood. I hope that you would recognize him at Lakewood's 50<sup>th</sup> Anniversary Celebration.

Sincerely,

Sheila Lainez

## The City of Lakewood

I like visiting Lakewood

because it's safe. There's a lot of

Lakewood Sheriffs and other people

who can help you. It's exciting

to see parades, fairs, and parks in the

city of Lakewood. It's exciting

to visit friends in Lakewood because

it is a safe place.

There's a lot of people cleaning the

streets and taking care of the roads.

The city itself, Lakewood is the

best place to live ever.

What I like about Lakewood  
Lakewood

What I like about Lakewood is when

I get to play catch with somebody.

I was 6 years old when I played.

My team was the BlueJays.

I like baseball because you get to hit the ball and run the bases, I got better at baseball because I practiced.
